Using Exam Reports to Analyze and Disaggregate Data

ACCESSING EXAM REPORTS

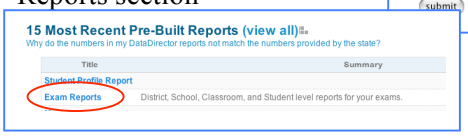
Two Options to View Reports:

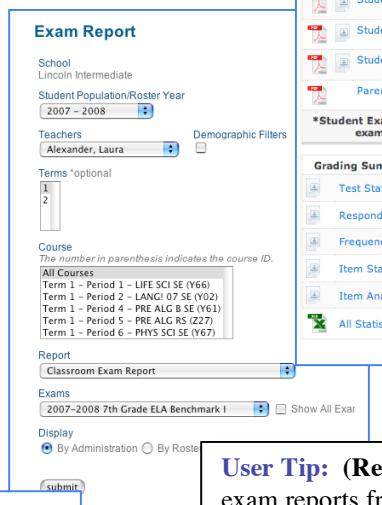
1. Go to **Exams** and click on the title of an exam that has student data

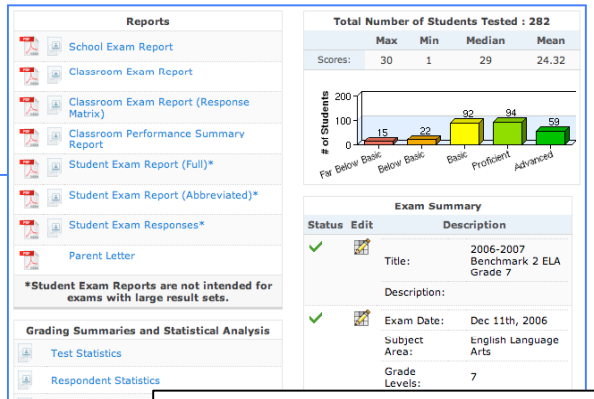
User Tip: Selecting an Exam through the Reports tab enables you to filter results by student demographics.

OR

2. Go to **Reports**, select **Exam Reports** in the Pre-built Reports section







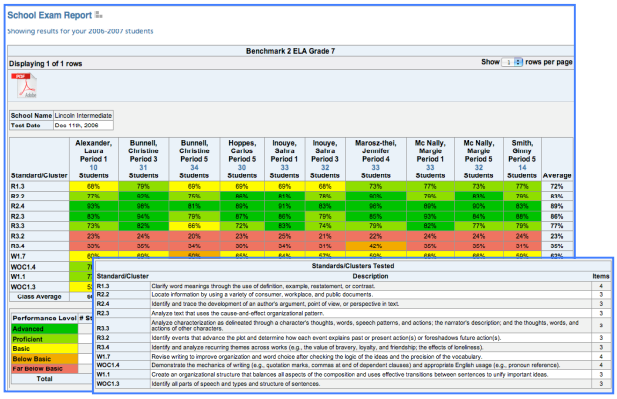
User Tip: The Exam page provides reports, a bar graph that distributes the results by performance band, and an Exam Summary with linked icons to edit your exam (if student data exists).

User Tip: **(Recommended)** Viewing exam reports from the **Reports** tab allows you to view specific student results using demographic filters.

School Exam Report (totals by teacher)

- Classroom performance average by standard/cluster and for overall test
- Performance level distribution across a site
- Description for each standard and cluster used in test

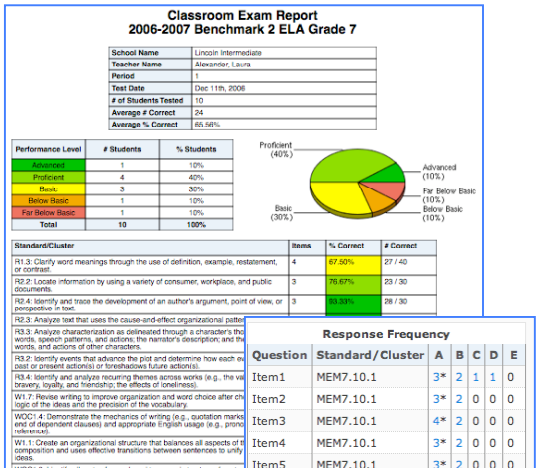
User Tip: Identify performance strength and weakness by standard/cluster per classroom.



Classroom Exam Report (view one class at a time)

- Summary results for each classroom: number of students tested, average number correct and average percent correct
- Performance level distribution with pie chart
- For each standard and cluster: description, number of items, percent correct and number correct
- Response Frequency table: tabulates student item-by-item responses

User Tip: Use the Response Frequency chart in this report to help identify distractors. You may click on the numbers to view which students chose each response.



Classroom Exam Report (Response Matrix)

- Item-by-item responses per student
- Class average percent correct by item

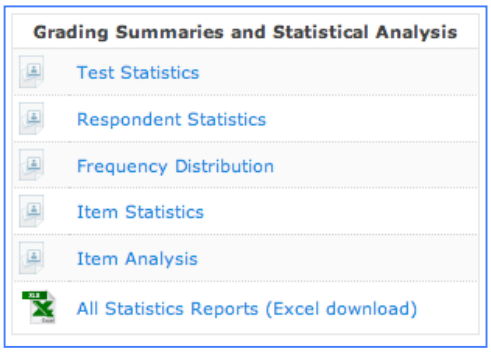
Grading Summaries and Statistical Analysis (Advanced Statistical Features)


- **Test Statistics** – statistical analysis of overall respondent data including min/max/median/mean score, inter quartile range, variance, standard deviation, and confidence interval reporting
- **Respondent Statistics** – total and percent score by student
- **Frequency Distribution** – tabulation of percentage range and performance band frequency
- **Item Statistics** –item-by-item statistics on sample size, number missing, p value, point biserial
- **Item Analysis** –analysis of the results for each item's answer choice and distractors
- **All Statistics Reports** (Excel Download) –a comprehensive report that downloads data from each of the statistic reports
