 - Monster Math Night
 - Family Literacy Night
 - STEM Night
- Other School Activities
 - Grandparent's Day
 - Sweet Heart Dance
 - Old School New School Basketball Game
 - Miracle Mile Celebration

School and Community

In 1959, the Board of Education realized that the growth in the Greenbrier development had exceeded existing educational facilities in the area. Therefore, on October 8, 1959, the Board approved the purchase of 8.6 acres for A. Brian Merry. The original building, containing 17 classrooms, was opened in the fall of 1965 under the direction of Principal A. M. Carter. Five hundred students in grades 1-7 were enrolled. Eight new classrooms were added for the 1971-72 school year as 750 students crowded Merry's halls. During the 1972-73 school year 5th, 6th, and 7th graders were sent to other area schools. In 1973-74, the fifth grade was returned to Merry. The new wing of classrooms and physical education building was a dream come true. Plans are now being developed to completely overhaul the heating and air conditioning system of the old wing, as well as reconfigure the administrative front office space.

General Information

A. Brian Merry Elementary School is a Title 1 School of Distinction which offers students a Gifted program, two Pre-K HeadStart blended classrooms, K-5 general education classes, special education classes for MOID, ABA, PreK and Autistic students, one full-time technology teacher supporting every student with computer instruction twice a week, a full time counselor and a "Teachers as Advisors" program administered monthly.

College and Career Ready Performance Index (CCRPI)

College and Career Ready Performance Index (CCRPI) is Georgia's statewide accountability system. The CCRPI assesses how well students are prepared for college and careers and ensures that schools are focused on improving achievement among all students. The index measures progress on indicators such as content mastery, student attendance, and preparation for the next school level. Schools earn CCRPI points based on indicators that vary by grade and school level and align with measures of college- and career-readiness. Schools may earn up to a set number of points in three main categories, for a total of 100 possible points.
