

Welcome Back!

My name is Anne Saffron and I am thrilled for our school year to begin!

Through the love of art my goal is to bring out the artist in every child that I know is still hidden deep down from childhood. Before students can write they create lines and shapes and scribbles. They draw! We sometimes get so focused on getting math problems correct or working on our spelling that we forget how to create something with freedom and I intend to pull that creative side out of each and every child.

Everywhere we look we see art. The music we listen to, the movies we watch, the buildings we live in, the cups we drink from, and the pictures we take on our phone. Sometimes we forget the world is filled with art and it's my intention to remind students just how important art is in any real world situation.

Every child is an artist and sometimes we might forget that as we get older. If I can spend the 2019/2020 igniting a passion in art in my students the year will be a success! I look forward to working with your child and can't wait to see what is in store!

Please don't ever hesitate to contact me with questions or concerns.
