

MEET THE TEACHER!

TEACHING LIFE...

This is my 25th year in education. I have been on the faculty at Lake Forest Hills for the last twenty-two years. I have taught Kindergarten, Fourth Grade, Fifth Grade, and Grades K-5 in the Science Lab. I have served as the IB/PYP Coordinator for our school since the fall of 2015. I work with small groups of students in book clubs during our school-wide intervention block. I work with teachers in collaborative planning to create a strong Programme of Inquiry for our students.

MS. COLEMAN

PERSONAL LIFE...

I am mom to Mason (20) and Evan (19). Mason is a Junior at Augusta University and Evan is a Freshman at Sierra College. We have one fur baby, a Yorkie, Macie (6). I love to read, listen to music, garden, and watch movies in my spare time. I grew up on a dairy farm, so I have a strong appreciation for living things and watching things grow.

MY EDUCATION:

I graduated from Jenkins County High School in Millen, Ga in 1992. I attended Augusta College as a Faculty/Alumni Scholar. I graduated from Augusta State University in 1996 with a Bachelor of Fine Arts in Early Childhood Education. In 2006, I graduated with my Masters in Educational Administration and Leadership from Cambridge College. Every piece of my educational path has helped mold the person and the teacher I am today. I learned from some of the very best educators, and I constantly try to put into action the things they taught me.
