February 8, 2019

Greetings from the Augusta Xi Chapter of Kappa Epsilon Psi Military Sorority, Inc.

We are thrilled to be offering scholarships to our local community. Last year we were able to award one college bound high school senior with a scholarship and as we continue to build, we are looking to double our efforts this year. This year, we are looking to award two \$1,000 scholarships to college bound high school seniors.

Kappa Epsilon Psi Military Sorority, Inc. is a sorority of more than 2,000 female retirees, veterans, and active duty service members from all branches of the Armed Forces. Mentorship of future leaders is one of the three principles of our organization's mission of *Honor, Unite, and Mentor*. One of the ways that the Xi Chapter of Kappa Epsilon Psi supports the mentorship of future leaders is by providing financial resources to help pursue a college education.

The Augusta Xi chapter will be awarding two scholarships in the amount of \$1,000 each to college bound high school seniors who meet the criteria listed below:

#### **Applicants must be:**

- High school senior that attends a public, private, or charter high school within Richmond and Columbia Counties in Georgia
- Have at least a 2.8 cumulative grade point average on a 4.0 scale
- Be active in their respective community through volunteerism

#### **Application Process:**

- Provide official high school transcript
- Provide typed list of academic, athletic, and extracurricular activities
- Provide one letter of verification of community service with the active dates, hours, and contact information of the activity (signed by mentor or event organization leader)
- Submit a 500 word double spaced typed essay in 12 point Arial font on the following topic:
  - Address an area of concern that is within your community or nationally that you have an involvement or interest in; and explain how you support or would support solutions for this concern through your personal community service.
- Provide two typed letters of recommendation from the following choices:
