

Welcome!

So glad you are here as a Hephzibah Middle Rebel!
Here are a few tips to help you get started:

My Teaching Style:

I believe in maintaining a happy, positive working environment. Students will not learn if they are miserable. We are not here to punish them. We are facilitators. Our job is to help them discover and learn. I try to be as consistent as I can be with my expectations, routines and composure. Our students respond best when they know what to expect.
