

Dear Parent/Guardian,

My name is Ms. Stephanie Smith, and I am happy to be working as your child's speech-language pathologist (SLP) this year. As we step into new territory with Distance Learning, we are all in this together. Many parents I have met this year and many I have not, so I wanted to provide some basic information about me.

I have been working in Richmond County for 3 years and during this time, I have been the SLP at many schools. The schools I serve for the 2019-2020 school year are Wheelless Road Elementary, Terrace Manor Elementary, and Reaching Potential Through Manufacturing (RPM). I enjoy working with all of my students to enhance their communication skills through many different structured activities which can include games and hands on tasks to keep things interesting. When I am not providing speech to my students, I enjoy spending time with my family including my puppy Achilles, traveling, reading, and cooking.

As we face difficult times and adversity during this period of Social Distancing, I want to ensure you all that you are not alone. Your student's progress is still very important. I am happy to answer any questions you might have – feel free to email, call, or text at any time!

Sincerely,

Stephanie M. Smith M.A, CCC-SLP
