

Students and Parents,

Welcome to the Visual Arts Department at ARC. As a 1979 graduate of the Academy of Richmond County, I take pride in being part of the faculty for a school that has such a long standing tradition in this community.

I graduated in 1991 from Augusta Collage with a BFA and started teaching at Butler High School. I continued my education at Georgia Southern earning an MFA in 1998. Then I spent four years at Hephzibah Middle school. I joined the faculty at ARC in 2003.

It was in high school that I decided to become an Art Teacher. I believe high school is a time when student begin to embrace their uniqueness and learn to navigate internally ways to find success. I believe all students can create and the Art Room provides a means to join invention and knowledge. Working, thinking, and feeling processes are the core of Art activities.

Regards,

Suzanne Webber
