

WELCOME TO A NEW SCHOOL YEAR!

Mr. Jennings
4th Grade

Communication

jennibr1@boe.Richmond.k12.ga.us

Participation & Preparation

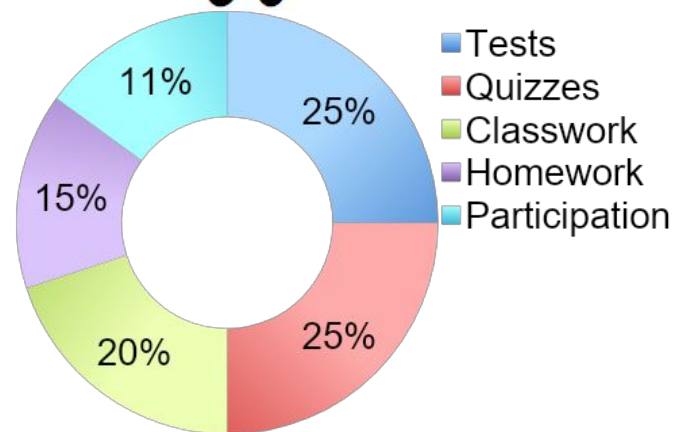

You are expected to participate and be prepared for class everyday with the items listed below. In addition, you are expected to come prepared for lab on designated class days (see Lab Procedures & Expectations).

Class Materials

Materials are due no later than **Friday, Aug 22**, and will count as a homework grade.

- Charged Chrome book
- 3 ring binder 1 inch
- Dividers (we will label these at a later date)
- * Filler paper College Rules
- Pencils (mechanical)
- Colored pencils/crayons
- Red pen
- Highlighter
- Headphones
- Pencils box

How is my grade calculated?

Tests & Quizzes

You will be tested on each of the four modules, and given quizzes on the individual units within each module.

The following resources will always be offered before a test: study guides, review games, and extra help (can always be requested).

Content/ Modules

In 4th grade, students develop foundational skills in math, language arts, science, and social studies. They learn to perform multi-digit multiplication and division, explore fractions and decimals, and begin to understand geometric concepts. In language arts, they continue to develop reading comprehension and writing skills, while science and social studies introduce them to the natural world and historical periods.

Binder Checks

Binder checks will be counted as a test/quiz grade. Binder checks will be random. Therefore, you are expected to keep an organized binder at all times. This should be an easy A, and help keep you organized!
