

WELCOME TO WESTSIDE!

PARENTS & GUARDIANS

PLEASE continue to send in your students' health cards for their own safety. Also, if your student suffers from any chronic illness staff must be aware of, please contact Nurse Gilmer. IF your student has Asthma, Severe allergies requiring an Epi-Pen, Seizures or Diabetes there must be an action plan on file in the clinic. Forms are available on the Westside website under Nurse Gilmer. The nurse CANNOT administer ANY medication to ANY student without guardian permission and the appropriate paperwork is completed and turned in. Additionally, the student must turn in an unopen bottle of medication with completed form to the Clinic before administration. Also, students are not allowed to carry any medication on their person without approval from your personal doctor and Nurse Gilmer. This includes any inhalers, Epi-pens, and Insulin.

THANK YOU,

NURSE LIZ
