K-12 SCHOOLS SYMPTOM SCREENING:
Parent/Guardian Attestation

GEORGIA DEPARTMENT OF PUBLIC HEALTH

Child's First Name: **Child's Last Name:**

Parent/Guardian First Name: _____ **Parent/Guardian Last Name:** _____

1. **Has your child had close contact (within 6 feet for a cumulative total of 15 minutes or more) in the last 14 days with someone diagnosed with COVID-19, or has any health department or health care provider been in contact with you and advised quarantine for your child?**
   - o Yes > The child should not be at school. The child can return after completing ALL requirements in the DPH's "Return to School and Child Care Guidance After COVID-19 Illness or Exposure"
   - o No > The child can be at school if the child is not experiencing symptoms.

2. **Does your child have any ONE of the below symptoms?**
   - ☐ Fever (≥100.4°F) or chills
   - ☐ New cough
   - ☐ Shortness of breath or difficulty breathing
   - ☐ New loss of taste or smell

   If a child has any of these symptoms, they should stay home, stay away from other people, and you should call the child's health care provider.

3. **Does your child have any TWO of the below symptoms?**
   - ☐ Sore throat
   - ☐ Nausea
   - ☐ Vomiting
   - ☐ Diarrhea
   - ☐ Muscle or body aches
   - ☐ Chills
   - ☐ Fatigue
   - ☐ New severe/very bad headache
   - ☐ New nasal congestion/stuffy or runny nose

4. **Since they were last at school, has your child been diagnosed with COVID-19?**
   - ☐ Yes
   - ☐ No

   If a child is diagnosed with COVID-19 based on a test, their symptoms, or does not get a COVID-19 test but has had symptoms, they should not be at school and should stay at home until they meet the criteria below.

A child can return to school when a family member can ensure that they can answer YES to ALL three questions:
   - o Has it been at least 10 days since the child first had symptoms?
   - o Has it been at least 24 hours since the child had a fever (without using fever reducing medicine)?
   - o Has it been at least 24 hours since the child's symptoms have improved, including cough and shortness of breath?

We protect lives.

If a child has had a negative COVID-19 test, they can return to school once there is no fever without the use of fever-reducing medicines and they have felt well for 24 hours.

If a child has been diagnosed with COVID-19 but does not have symptoms, they should remain out of school until 10 days have passed since the date of their first positive COVID-19 diagnostic test, assuming they have not subsequently developed symptoms since their positive test.

If a child has been determined to have been in close contact with someone diagnosed with COVID-19, they should remain out of school and extracurricular activities until they have completed all requirements in the DPH guidance for persons exposed to COVID-19 found at https://dph.georgia.gov/contact.

I attest that the following information is true to the best of my knowledge as of:

_____/_____/_____,_____:_____ **AM PM Signature** _____

MONTH   DAY   YEAR   TIME   CIRCLE ONE

Return this completed form when your child returns to school.

- **Augusta University -**
