

Langford World Middle School

Get ready to be a
Verizon Innovative
Learning School!

Langford's Mission

IB Learners Today, Global Leaders Tomorrow.

The Verizon Innovative Learning School (VILS) opportunity will strengthen our mission and provide our students with opportunities to grow as digital citizens in an ever-changing global society.

What is the VILS Grant?

The Digital Promise Innovative Learning Schools Grant collaborates with Verizon to equip every student and teacher at select middle schools with a device and up to a four year data plan, to fill the need of the students nationwide who lack access to technology and the skills to succeed in the digital world.

Support and Training

With this grant, we will be getting training and support from the VILS team as well as a dedicated Tech Coach paid for by the grant. The dedicated Tech Coach will spend time with teachers and students building their technology skills and working to grow our students into digital citizens.

What Are The Expectations With This Grant?

The plan is to integrate the technology into daily teaching. This will look different. There will be PLC and planning time with the Tech Coach to help with how best to use the devices with the students and content areas.
