

GUYS WITH TIES

Dear Parents/Guardians:

Guys with Ties is a mentorship program at Copeland Elementary School that fosters a community of self-love, self-care, and self-worth. We focus on the advancement of young men to make positive life choices and to maximize their authentic potential. The program is committed to creating change and building voices of young men. We envision a community in which every young boy is empowered to make informed decision, establish healthy relationships and be self-sufficient. Guys with ties mentoring has a mission to equip boys with the tools to: become leaders and better versions of themselves through our six themes: character building, self-esteem, self-awareness, body image, etiquette, and career readiness. Through mentorship, we nurture their goals, aspirations, and ambitions. We encourage them to flourish into their full potential. Our goal is:

- Cultivate long term mentor/mentee relationship through group mentoring
- Provide etiquette tips and opportunities for practical application
- Instill positive self-image that empowers boys to be confident
- Build character and esteem to be leaders and global citizens
- Enhance leadership and public speaking skills

Guys with ties is open to all boys in grade KG-5th grade. We meet bimonthly (every other week) on Wednesday from 2:45pm-3:50pm in the cafeteria.
