## ABOUT ME

Welcome!

I'm a 6th grade middle school science teacher, and this is my second year teaching. I have a passion for helping students explore the wonders of the world around them. In my classroom, curiosity, discovery, and hands-on learning come together to make science engaging and fun. I'm excited to welcome students and families to a great year of learning and growth!

Outside of the classroom, I enjoy working out, spending time with family and friends, going to sporting events, traveling when I can, listening to music, and reading. I'm also a big fan of anime and cartoons—definitely a big kid at heart! And as a huge sports fan, you'll often hear me cheering loud for the Ravens—go Ravens!
