

Homework Policy

Mrs. Starling-Scruggs
1st Grade

Dear First Grade Families,

This year, homework may be very different from what you have experienced in the past. Our students will earn homework STARS.

Each week, your child will have a list of homework options. These items will be selected to help your child master reading fluency and review 1st grade math skills. Each activity completed will earn your child one star. There may be additional activities listed for those students who need, or like, an extra Challenge. The more activities completed, the more stars earned!

At the end of the week, your child will need to return the list of homework options with his/her stars totaled and a parent signature. Students will be rewarded based on the number of stars collected.

Please let me know if you have any additional questions.

Warmest Regards,
Mrs. Starling
