

2020-20201

MS. FREEMAN VISUAL ART CLASS

*WELCOME STUDENTS AND PARENTS TO
ANOTHER GREAT YEAR AT RCTCM.*

Did you know that students that are actively involved in fine arts such as visual art and music have been known to have higher standardized test scores? So get your kids excited about art. What would the world be without it? Pretty boring!!!

Art class can help one.....

Recognize art as a means of communication

Encourage the use of self-expression

Develop an understanding for the role of art in history, culture and community

Understand roles of artists

Create 2D & 3D artworks to express ideas and feelings

Develop the ability to understand and use the elements and principles of art

Develop an understanding of comparing, interpreting and evaluating art of self, other students and major artists

Develop awareness for different careers in the field of art

Discover how creating art can enhance your understanding of other school disciplines

Develop an awareness of art beyond the classroom. Student will know ways art affects your life on an everyday basis.

Important

To ensure that safety of those participating in art this year, each student will be required to maintain and keep up with their own art supplies. Students will need to purchase the following items. Depending on class projects, any necessary items that are not on this list will be supplied by the teacher and maintained by student as well. Students are asked to take care of their supplies so that they will last. Any questions or concerns please do not hesitate to reach out to me.
