

School Improvement Plan Process

Richmond County School System

2019-2020

The “APIM” framework can be used for School Improvement Planning, Departmental Improvement Planning, Strategic Planning, Lesson Planning, Using Data, or for any process.

ASSESS: In the Assess step, you identify data sources, collect and analyze relevant data, determine root causes, and create a Strengths, Weaknesses, Opportunities, and Threats (SWOTs) analysis. Determine strategies to address the root cause of issues.

PLAN: Decide on an initiative and then determine action steps and performance measures. Write the plan out to include the initiative, performance objective (aligned with the Strategy Map), action steps, and performance measures.

IMPLEMENT: Communicate the expectations of the performance measures and targets as well as action steps to all stakeholders. Request support from the Central Office if needed. Begin to follow the action steps to bring you closer to the set targets.

MONITOR: After implementing the plan, it must be evaluated to determine what is working effectively. Review the targets to determine if they need to be adjusted. Think through the action steps to make sure that they are helping you reach the targets and revise as needed. If processes are working well, make those processes part of a standard procedure.

High School School Improvement Plan Evaluation 2018-2019

Initiative #1 Evaluation	
EOC	
Goal Area:	High Academic Achievement and Success for All
Performance Objective:	Increase student performance at or above grade level
Initiative #1:	Utilize EOC score from 2016/17 as baseline data, Laney will increase the number of students performing from proficient or above by 3% points in all EOC content areas as measured by GMAS scores (EOC), by the end of the 2018/2019 school year.
What was the need being addressed by this initiative?	To raise EOC scores
What was the reason for selecting this initiative?	Too many students at beginning level on Georgia Milestones
What were the intended results of this initiative?	To increase the number of students scoring proficient and distinguished
Initiative #1 Implementation Evaluation	

High School School Improvement Plan Evaluation 2018-2019

<p>Were there any barriers to implementing this initiative? Why or why not?</p>	<p>There were no barriers to implementing this initiative in History. In ELA and Math attendance issues caused students to fall behind on tasks and using the program as designed. In Math, teachers lack of knowledge of IXL- Teachers do not attempt to utilize any IXL with their students if they find IXL to be overwhelming or frightening. Teachers feel they do not have the time to discover the features themselves.</p> <ul style="list-style-type: none"> • Inadequate knowledge of technology-supported pedagogy: Teacher struggling with how to use IXL to improve instruction. When teachers do not understand the different ways in which technology can function within pedagogy, they are more likely to simply adopt technology without properly integrating it into the curriculum. • Insufficient knowledge of technology-related-classroom management: Classroom management has been identified as
<p>Were there any barriers to maintaining this initiative through the expected timeframe? Why or why not?</p>	<p>Student attendance created barriers for the timelines, use of technology sometimes affected timelines, and lack of consistency by students to continue the practice as assigned all effected the initiative timelines.</p>
<p>Are changes needed to improve the full implementation of this initiative? What changes?</p>	<p>Making sure that the programs start at the beginning of the year, with fidelity. Utilize graphic organizers for better consistency and clearer expectations.</p>
<p>Initiative #1 Effectiveness Evaluation</p>	
<p>What data were collected to monitor and evaluate the effectiveness of this initiative?</p>	<p>Data from each program, work samples, student GA milestone scores. Scores for programs used are in gradebook for students. Student data was collected individually from IXL to guage student mastery.</p>

**High School
School Improvement Plan Evaluation
2018-2019**

<p>Citing specific data points, was the initiative successful in addressing the need? Why or why not?</p>	<p>According to GA Milestone scores, we were able to increase 9th grade Lit, Algebra I increase 3% points, Biology went down due to the number of students enrolled in the course being greater this year than last, US History increased, but not to the 3%.</p>
<p>Will you continue with this initiative in the next school year? If so, what changes need to be made to improve its effectiveness?</p>	<p>Yes, we will begin programs earlier, train for more strategies to teach with technology in the classroom, complete more peer observations to learn tech strategies from colleagues, and getting students to buy into the process along with teachers.</p>

High School School Improvement Plan Evaluation 2018-2019

Initiative #2 Evaluation	
Initiative #2 Description: Lexile	
Goal Area:	High Academic Achievement and Success for All
Performance Objective:	Increase student performance at or above grade level
Initiative #2:	Increase the percentage of 9th and 11th grade students Lexile scores to 1155/1285 or higher by 3% points by the end of the 2018/2019 school year.
What was the need being addressed by this initiative?	Students unable to comprehend on level texts which effects all areas.
What was the reason for selecting this initiative?	Students are not able to read on the level of the standards aligned questions. Focus was placed on opportunity to learn reading strategies and a variety of texts.
What were the intended results of this initiative?	Raise student Lexile scores by having more on level in reading which relates to better comprehension in all content areas.
Initiative #2 Implementation Evaluation	

High School School Improvement Plan Evaluation 2018-2019

<p>Were there any barriers to implementing this initiative? Why or why not?</p>	<p>Students are simply uninterested in the program itself due to childish nature, and number of years they have already utilized iReady, leading to poor data and teachers inability to accurately group students for interventions.</p>
<p>Were there any barriers to maintaining this initiative through the expected timeframe? Why or why not?</p>	<p>Time is the main barrier for analyzing data and still being able to maintain required program time.</p>
<p>Are changes needed to improve the full implementation of this initiative? What changes?</p>	<p>An alternative to iReady is needed to better engage students and get more student buy in. Training for monitoring process for teachers that are not clear on how the program works. Find ways to align text selection or lesson selection that aligns with the curriculum.</p>
<p>Initiative #2 Effectiveness Evaluation</p>	
<p>What data were collected to monitor and evaluate the effectiveness of this initiative?</p>	<p>iReady and Achieve 3000 data reports</p>

**High School
School Improvement Plan Evaluation
2018-2019**

<p>Citing specific data points, was the initiative successful in addressing the need? Why or why not?</p>	<p>We had an increase in Lexile scores compared to previous years. Utilizing other programs to analyze texts, learning typing programs to practice toward test, and other classroom programs led to an increase in Lexile scores.</p>
<p>Will you continue with this initiative in the next school year? If so, what changes need to be made to improve its effectiveness?</p>	<p>Yes, we will continue the initiative. We would like to find alternatives to the iReady program, find ways to teach the students typing skills (Achieve 3000 allows for typing practice aligned with EOCs)</p>

High School School Improvement Plan Evaluation 2018-2019

Initiative #3 Evaluation	
Initiative #3 Description: Attendance	
Goal Area:	High Performing Culture and Workforce
Performance Objective:	Develop and implement staff high standards and expectations
Initiative #3:	Decrease students absent 6 or more days by 3% points from 44.3 to 41.3 by the end of the 2018/2019 school year.
What was the need being addressed by this initiative?	Attendance effects student achievement
What was the reason for selecting this initiative?	You can't learn if not at school.
What were the intended results of this initiative?	To increase student attendance therefore increasing student achievement.
Initiative #3 Implementation Evaluation	

High School School Improvement Plan Evaluation 2018-2019

<p>Were there any barriers to implementing this initiative? Why or why not?</p>	<p>Lack of funding for initiatives for students to encourage attendance, staying consistent with reward systems (PBIS) Time also effected ability to implement programs. Inconsistency in implementing programs.</p>
<p>Were there any barriers to maintaining this initiative through the expected timeframe? Why or why not?</p>	<p>Inconsistencies in maintaining initiatives during the timeline.</p>
<p>Initiative #3 Effectiveness Evaluation</p>	
<p>What data were collected to monitor and evaluate the effectiveness of this initiative?</p>	<p>Walk-through cycle, teacher survey, student surveys of program, end of year PBIS report, attendance reports, tardy reports</p>
<p>Citing specific data points, was the initiative successful in addressing the need? Why or why not?</p>	<p>Based on the PBIS student survey, the PBIS program is not successful. Absences were similar in number to last year with little improvement.</p>

**High School
School Improvement Plan Evaluation
2018-2019**

<p>Will you continue with this initiative in the next school year? If so, what changes need to be made to improve its effectiveness?</p>	<p>Yes, changes include focusing on the number of tardies more as they add up to absences as well. Re-evaluate the PBIS process and programs, more consistency in the PBIS initiatives and celebrations, tracing field trip absences better as excused in system, utilize attendance clerk position / Pull attendance data every quarter and share with Leadership team so that everyone understands where shortfalls are.</p>

% of Students Scoring 22+ on the ACT		5.9		5.9000	School-level Data
<p>Reflection Questions: How are student Lexiles used instructionally to improve student growth? How are Lexiles communicated to parents to ensure they understand what these scores mean? How are Lexiles communicated to students and used for goal setting? What training do teachers receive to enhance their professional knowledge about Lexiles? Does your professional learning for Lexile instruction include all content teachers? How can Media Specialist support increased Lexile measures?</p>					
<p>Student lexiles are used to group students for differentiation. They are shared with the students and parents in their iReady, Achieve 3000, and EOC scores. The students have goals of Lexile measures to achieve that coincide with state testing standards, the ACT, and SAT. PL takes place to help teacher understand Lexiles, especially for those teachers who are not in and ELA setting. The media specialist supports the school and Lexile measures through leveling of books, helping students find books on level (or with a little stretch), and through teaching lessons aimed at increasing reading levels and comprehension. The media specialist helps to find resources for teachers and students on varying lexile levels so that students can learn at their level and work to increase it.</p>					
<p>Reflection Questions: How many students are currently enrolled in Dual Enrollment? How are students made aware of Dual/Joint Enrollment opportunities and how do you ensure academic counseling is provided? Do representatives come on site? Do you hold parent meeting and provide other awareness opportunities for parents and students? Which students can potentially take advantage of MOWR opportunities? What are the barriers to participation and eligibility for MOWR? How are you supporting MOWR students to ensure academic success in these courses?</p>					
<p>We currently have 23 students enrolled in Dual Enrollment. All students are made aware of MOWR through daily announcements, representatives for local colleges, flyers, LCL website, GAFutures website and word of mouth. Once students show interest in MOWR, they meet to go over GPA, rules and expectations for designated college of choice. Parent conference is held to ensure parents are aware of the benefits, rules, and expectations. Students participating in the program are supported in ongoing ways by guidance with monitoring of attendance and grades. All students that meet the criteria for the program are eligible. The barriers met to MOWR here at Laney are due to transportation</p>					

High School Comprehensive Needs Assessment 2019-2020

Reflection Questions: Are you providing resources to support preparation for the SAT/ACT? What are these resources?

We provide SAT/ACT preparation classes for students as well as practice tests that provide valuable instruction to support students' ability to improve prior SAT scores or to meet the minimum criteria for college entry. We provide study prep materials to include books and online programs like Khan Academy for student practice. Sprint One Million provided devices for students who did not have internet or devices at home. Those students are encouraged to complete ACT and SAT test prep and are rewarded by receiving free data based on study time that they complete on the donated devices.

Student Profile	2016-2017	2017-2018	2018-2019	3-yr Avg	Data Source
Total Student Enrollment	587	649	565	600.3333	Infinite Campus (Student Information->Reports->Enrollment Summary)

Discipline Incidences	1045	1167	682	964.6667	Infinite Campus->Behavior->Reports->Incident. Click on List by Year to see other school years.

Reflection Questions: What is your schools attendance plan? How do you address attendance issues? Phone call? Notes home? Home visit? Do you use your parent facilitator or designee? Who monitors attendance and how it affects your CCRPI score? Are there any rewards systems in place for attendance? Are these rewards monthly? Quarterly? Yearly?

Our current school attendance plan created an attendance committee (ART). The goal is to reduce absences and increase overall student attendance. ART is made up of different members from different departments to include teachers, staff, and administration. Attendance data is pulled for each meetings and utilizes participation from all teachers. The ART team and goals work in conjunction with the PBIS team. Auto Robocalls are set whenever teachers input attendance. 5 day attendance letters are mailed home. Teachers are expected to call parents for student absences as well. Our social worker makes home visits as needed. The ART team monitors attendance. Students are rewarded during our quarterly Academic Pep Rally for perfect attendance and fewest missed days.

% Staff Absent 6+ Days	44.8	45%	54%	15.2632	School-level Data
<p>Reflection Questions: Do you monitor teacher/staff attendance? Are any teachers/staff chronically absent? Do these teachers/staff miss Mondays and Fridays more so than others?</p> <p>Teacher/Staff attendance is consistently monitored through the bookkeeper and administrative staff. There are 32 teachers/staff that have missed 6 or more days and are considered chronic. Of these, three teachers/staff were on extended medical leave. Only 5 teacher/staff members have perfect attendance.</p>

High School Comprehensive Needs Assessment 2019-2020

Question from the Georgia Student Health Survey with the highest rating (Highest percentage of Strongly Agree/Agree or Always/Often)	46, 49	46	40	N/A	http://www.gadoe.org/Curriculum-Instruction-and-Assessment/Curriculum-and-Instruction/GSHS-II/Pages/GSHS-Results.aspx
<p>Reflection Questions: How do out-of-school suspensions affect attendance? Do you have interventions in place that could replace suspensions as a form of punishment? What positive behavior reinforcement program or initiatives does your school have in place?</p>					
<p>Out of school suspension affects attendance because it reduces the number of students who are in class learning. In order to reduce the number of students suspended we utilize proactive measures such as removing students out of the classroom who are disruptive and having an administrator counsel the student about or his or her actions. In addition, we utilize P.B.I.S as a form of positive reinforcement. We have school dances, movie nights, and Shout Outs to students who show positive behavior.</p>					
<p>Reflection Questions: What is your school-wide discipline plan? Does the school wide discipline plan mirror board policy? What additional policy and procedures does your school have that are unique? Is your faculty and staff consistent with the school wide discipline plan? Are there any teachers that stand out that have had historical issues with discipline referrals? How is that teacher supported?</p>					
<p>Our school follows the discipline policies set by the county school system. Our staff met at the beginning of the year to go over the school wide discipline plan so that our whole staff would have the same expectations addressing student behavior. We reviewed our data and identified 4 teachers who need assistance with classroom management. In order to address those concerns we observed those teachers and gave them feedback. Also, we provided those teachers with PLs to help them improve their classroom management.</p>					

High School Comprehensive Needs Assessment 2019-2020

Reflection Questions: What types of training have you offered to address student discipline? What types of training is needed to address student discipline? For students who are long term (5-10 day suspension/ alternative) suspended, how are they transitioned back in the school? How are you monitoring and supporting academics of the students who are chronically suspended?

We offer PLs to our teachers who have continuous discipline concerns. For our students who receive long term suspensions we transition those students back into school by having transitional meetings with the student where as the principal will meet with the student and his or her parents to discuss school expectations before the student can enroll back into the school. For students who are chronically suspended and are having academic concerns we offer several restorative practices such as Edgenuity and Departmental credit recovery to ensure those students don't fail.

Reflection Questions: What areas of concern are revealed in the Georgia Student Health Survey results? How does this relate to your School Climate Star Rating? How are these concerns addressed in your day-to-day operations? Do they represent gaps in your procedures or follow-through on your procedures? What needs to change to improve on these concerns?

Number 37 "I have been involved in a fight at school" was answered that many students had been involved in fight and that is a concern. To address this concern there are several things that take place within the school. Our discipline plan is one, another is counseling. Laney has small group counseling as well as individual counseling. There is also Peer Mentoring and Counselor referrals by teachers / staff. Number 46 parent involvement with low ratings is also an area of concern. We received a 3 star rating on CCRPI. We have montly parent meetings, PBIS teams and other events where parents are invited in order to try and increase the number of parents involved in the school. This has been an ongoing uphill battle in which we are constantly trying to find new ways to be successful. The guidance office has started montly coffee with the councilors and parent events are planned around student activities to bring more parents to the school. There are no gaps in our procedures to meet needs addressed in the health survey.

Reflection Questions: Do the Georgia Student Health Survey results reveal any concerns with alcohol/drug abuse or self-harm? How are these concerns being addressed? What needs to change to improve on these concerns?

No, there were not concerns noted with alcohol/drug abuse or self-harm.

High School Comprehensive Needs Assessment 2019-2020

Family and Community Engagement Data Profile	2016-2017	2017-2018	2018-2019	3-yr Avg	Data Source
External Business/Community Partnerships (#)			5.0	5.0000	School-level Data
Community Events (#)			7.0	7.0000	School-level Data
School Events (#)			33.0	33.0000	School-level Data
Parent Training Workshops (#)			12.0	12.0000	School-level Data
Curriculum Nights (#)			4	4.0000	School-level Data

last data was 2015/16

Based on your data and the reflective questions, what are the three main initiatives that your school needs to focus on this school year?

1

Utilizing the 2018/2019 scores as baseline score, Laney will increase the number of students scoring proficient or above by 3 percentage points in all EOC content areas as measured by GMAS scores (EOC), by the end

2

Increase the percentage of 9th and 11th grade students' Lexile scores to 1155/1285 or higher by 3 percentage points by the end of the 2019-2020 school year.

3

Decrease percentage of students who are absent 15 or more days by 3 percentage points from 26.9% to 23.9% by the end of the 2019-2020 school year.

2019-2020 School Improvement Plan – High

School Improvement Plan Glossary

Performance Measure: Data point to measure a school's achievement on key indicators. Successful implementation of any school improvement plan will increase achievement on these indicators.

Target: Goal set by the school as to what a reasonable growth in achievement can be from one year to the next year. Targets are adjusted every year based on the previous year's actual values.

Actuals: Score received by the school that are based on real data.

Goal Area: Gold-colored box on the RCSS Strategy Map aligned to the focus of the School Improvement Plan. Operational Effectiveness; High Performing Culture and Workforce; Communication; Community Engagement; and High Academic Achievement and Success for All are the Goal Areas.

Performance Objective: Blue-colored box on the RCSS Strategy Map aligned to the selected Goal Area. For example if the selected Goal Area is High Academic Achievement and Success for All, the only choices for Performance Objective are Increase Graduation Rate; Increase Student Performance At or Above Grade Level; and Increase College, Career, and Workforce Readiness.

Initiative: Broad description of the work to be accomplished. Could be in the form of a SMART goal or short like the chapter of a book. Must be related to the weakness and root cause found through the Needs Assessment.

Action Step: Specific task to be accomplished in order to complete the Initiative. Task should be completed within a specific amount of time with a specific team/leader assigned to oversee its direction.

Group Affected by Initiative: The specific target of the action step, could be teachers receiving a particular PL course, 7th grade students receiving a type of intervention, or all students for school-wide action steps.
