**school
and
community**

Richmond County Technical Career Magnet School (RCTCM) is the newest high school in Richmond County School System (RCSS), providing technical and career programs, serving students in Grades 6-12, throughout the district. We are located at 3200 B Augusta Technical Drive. Our campus is very unique from all other schools in the district because we share the same campus entrance with the technical college (Augusta Technical College).

Our focus is early college and career ready opportunities. We currently have approximately 40 students participating in Dual Enrollment with great hopes of students earning an associate's degree prior to completing high school. This Dual Enrollment program is a state funded program for all students in Georgia. It is our goal to create an intense employment pipeline to meet the needs of the community as well as the nation's workforce.

our students

524 enrolled

our CCRPI stats

College and Career Ready Performance Index (CCRPI) is Georgia's statewide accountability system. The CCRPI assesses how well students are prepared for college and careers and ensures that schools are focused on improving achievement among all students. The index measures progress on indicators such as content mastery, student attendance, and graduation rate. Schools earn CCRPI points based on indicators that vary by grade and school level and align with measures of college- and career-readiness. Schools may earn up to a set number of points in five main categories, for a total of 100 possible points. In 2019-2020, statewide accountability was suspended due to COVID-19 closures.

**class rank & grade
point average**

An official class rank is compiled for each grade that is computed at the end of the year. Averages are carried out to three decimal places and final averages are not rounded. Student's grade point average (GPA) is based on quality points. Regular high school courses are on a 4.0 scale and Advanced Placement, International Baccalaureate, and College/University courses are on a 5.0 scale awarded for each grade earned. High school student transcripts include the GPA, class rank, and numerical average.

Accredited in 2017-2018
