

# **2020 - 2021 Geometry Summer Assignment: Review the Basics**

**Step 1:** If you do not already have a Khan Academy account, create one now at [khanacademy.org/login](https://khanacademy.org/login)

**Step 2:** On your profile page, go to the "coaches" tab and add this class code: **S4329373**

**Step 3:** When you are registered in the class, you will see Assignments that are all due on August 3rd.

**Step 4:** Work your way through the videos, tutorials, and quizzes until you finish!.

Completing the summer work IS for a grade!

During the first week of school, all Geometry students at DFA will have a test over these topics

**Additionally, please join my Remind group for next year! @DFAgeo20**

If you need to get in touch with me about ANYTHING, Remind is usually the fastest way. Email is good too, but I don't check as frequently during the summer months.

## **Required Supply List**

- Composition Book (graph paper inside is the best option!)
- Binder with notepaper & graph paper
- Scientific Calculator (TI-30 IIS or Casio fx-82es are both great and under \$20)
- Good quality compass (Circle Masters & bow compasses are awesome!)
- Protractor

**Appreciated supplies for the classroom:**

- Tissues
- Disinfecting Wipes
- Hand Sanitizer
