

Preventing Covid in Our Classroom

- ★ Screen your child's health before sending them to school.
- ★ Please do not send them to school if they are sick.
- ★ Students should wear a clean mask everyday.
- ★ Students will have opportunities to have a mask break.
- ★ Please inform me if your child cannot wear a mask.
- ★ The mask must cover both nose AND mouth to be effective.
- ★ We will practice social distancing.
- ★ Students must cough or sneeze into their elbow.
- ★ Students will have ample access to soap & water and hand sanitizer.
- ★ Students can have plain water with them at their desk.

These preventive measures and proper hygiene habits will be taught and reinforced daily. Families' continued efforts in preventing Covid outside of school is essential. We need to work together to keep everyone in our community safe and healthy.

If you have any questions or concerns, please reach out and I will be happy to help you.

Shine bright,

Ms. Kelly
