

4th-Grade Science Classroom, expectations revolve around creating a positive and engaging learning environment while fostering curiosity and responsibility.

1. **Respect and Cooperation:** Students are expected to listen to their teacher and classmates, follow directions, and work together on group activities with a positive attitude towards learning.

2. **Participation:** Students should actively participate in class discussions, experiments, and activities.

3. **Safety:** Following safety rules during experiments and activities is crucial. This includes wearing safety gear if required and handling materials properly.

4. **Curiosity and Exploration:** Students should approach science with curiosity, be willing to explore new concepts, and engage in hands-on activities.

5. **Homework and Assignments:** Completing assignments and homework on time is expected. This includes any project work or research given by the teacher.

6. **Following Instructions:** Listening carefully to instructions and following them accurately helps in conducting experiments and understanding concepts.

7. **Communication:** Effective communication with the teacher and peers is key. This includes asking for help when needed and sharing findings or questions.

8. **Responsibility:** Taking responsibility for one's own learning, including managing time and materials, is encouraged. Students should be proactive in their education.

These expectations help create a structured and supportive environment where students can thrive and develop a love for science.

4th-grade Social Studies Classroom, expectations help ensure a productive, respectful, and engaging learning environment. Here's what students are expected to do:

1. **Respect and Courtesy:** Treat classmates, the teacher, and materials with respect. Listen when others are speaking and contribute to discussions in a respectful manner.
2. **Active Participation:** Engage in class activities, discussions, and projects. Show enthusiasm for learning about different cultures, historical events, and geography.
3. **Responsibility:** Complete assignments and homework on time. Bring necessary materials to class, such as textbooks, notebooks, and any required supplies.
4. **Organization:** Keep social studies materials, such as notes, worksheets, and projects, organized.
5. **Curiosity and Open-Mindedness:** Approach lessons with curiosity and an open mind. Be willing to learn about different cultures, historical perspectives, and viewpoints.
6. **Following Directions:** Pay attention to instructions and follow them carefully, whether for classroom activities, group work, or individual assignments.
7. **Collaboration:** Work well with peers during group activities and projects. Share ideas, listen to others, and contribute to the success of the group.
8. **Critical Thinking:** Apply critical thinking skills to understand and analyze historical events, societal structures, and geographical information.
9. **Honesty and Integrity:** Do your own work and be honest in your responses and interactions.
10. **Communication:** Clearly express ideas and questions. Ask for help when needed and share your understanding and perspectives in discussions.
11. **Respect for Diversity:** Appreciate and respect cultural, historical, and geographical diversity.

These expectations help create a positive learning environment where students can explore social studies topics effectively and develop a deeper understanding of the world around them.
