

Math Spring Break Activities

You will find activities that support **Measurement and Data** and **Number and Operations- Fractions**. This is the strand in the RCSS mathematics curriculum that focuses on measurements as well as units of measurement and fractions.
Additional activities can also be found at [Make Mathematics Count GA!](#)

Grade Level	Focus	Grade Level	Focus
	Describe measurable attributes of objects by selecting activities on the Khan Academy website below. https://www.khanacademy.org/commoncore/grade-K-MD		Work with fractions in different forms by selecting activities on the Khan Academy website below. https://www.khanacademy.org/commoncore/grade-3-NF
	Tell and write time as well as compare and order measurements by selecting activities on the Khan Academy website below. https://www.khanacademy.org/commoncore/grade-1-MD		Work with fractions in different forms by selecting activities on the Khan Academy website below. https://www.khanacademy.org/commoncore/grade-4-NF
	Estimate, compare, and measure lengths of objects by selecting activities on the Khan Academy website below. https://www.khanacademy.org/commoncore/grade-2-MD		Work with fractions in different forms by selecting activities on the Khan Academy website below. https://www.khanacademy.org/commoncore/grade-5-NF
