DAVIDSON FINE ARTS SCHOOL

AUGUSTA, GA
1983-84

1983-84

ACADEMICS
MRS. IRELL HARP

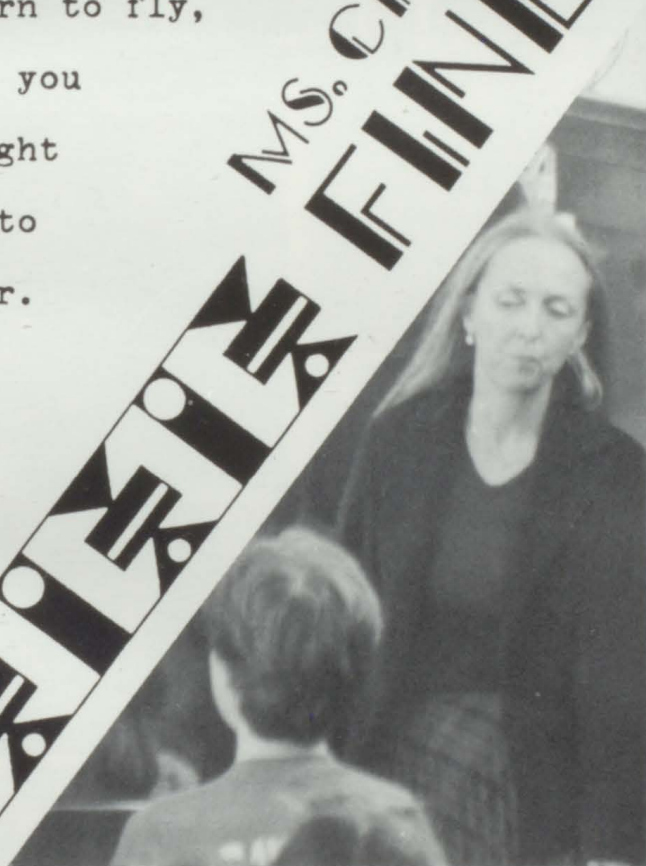

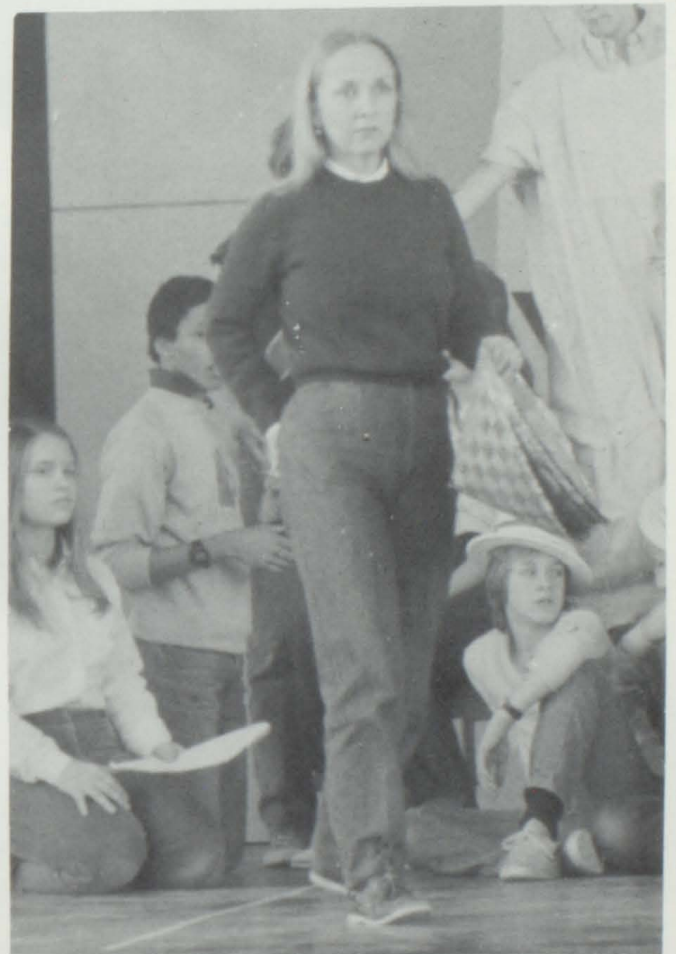

Mrs. Harp came to Davidson this year and has already made many contributions to us. Our computer center is expanding and by the middle of the year, we were seeing T-shirts that proclaimed, MATHEMATICS IS A FINE ART. She has made her math classes and math club into a fine art that has produced the logic needed to go out into the world. Through her we reached new heights this year--she makes us reach for something greater. Thank you.

DEDICATION

Ms. Griffin has left her mark on the drama department and on Davidson since the school first opened. Organizations throughout the city has seen what she is through her students, J. D. and Company.

She contributes to our growth by making us stretch our minds as well as our souls. She drives us hard, but shows us the satisfaction of a job well done.

Ms. Griffin, we came to you to learn to fly, but you taught us to soar.

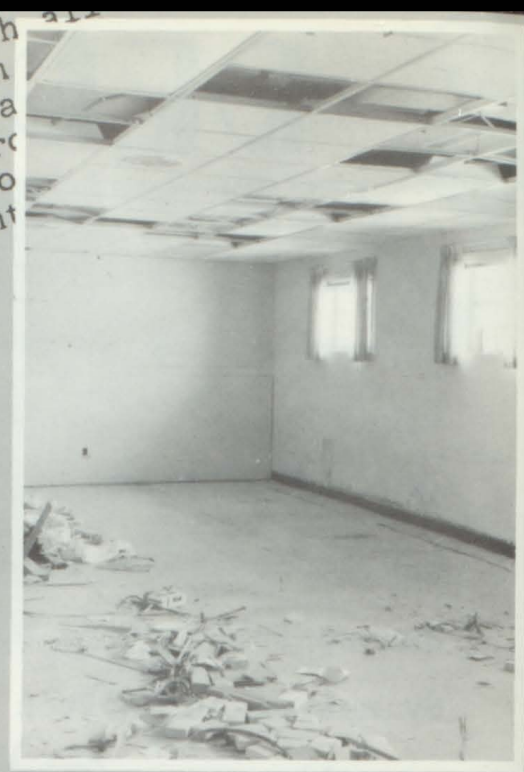

MS. CHERIE GRIFFIN
FINE ARTS

November 11, 1983

Dear Staff,

I would like to take this opportunity to thank everyone and all, for your cooperation and patience with the remodeling and painting that has been going on at school. I am aware of the extra tasks put upon everyone of you to quickly and systematically upgrade homerooms and daily class schedules. This was no accomplishment, you accommodated our student minimal problems. Congratulations!

To these and all the other men who made Davidson look more beautiful and colorful than it ever did, we thank you.

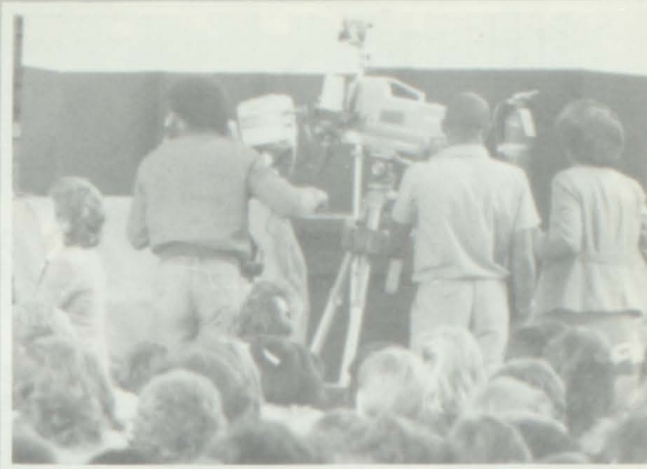

Davidson's Best

Walden Fine Arts School
A federally-authorized study of the nation's magnet schools has rated Walden Fine Arts School in Augusta as having the highest quality of education among the 45 schools studied.
The study, conducted by a Washington, D.C.-based consulting firm, Department of Education's Office of Planning, Budget and Management, included in-depth examinations of 45 magnet schools in geographically diverse areas of the United States.
The results of the study, released to local school officials, show that Walden Fine Arts School is the only school in the state to be rated "A" for the highest quality of education.

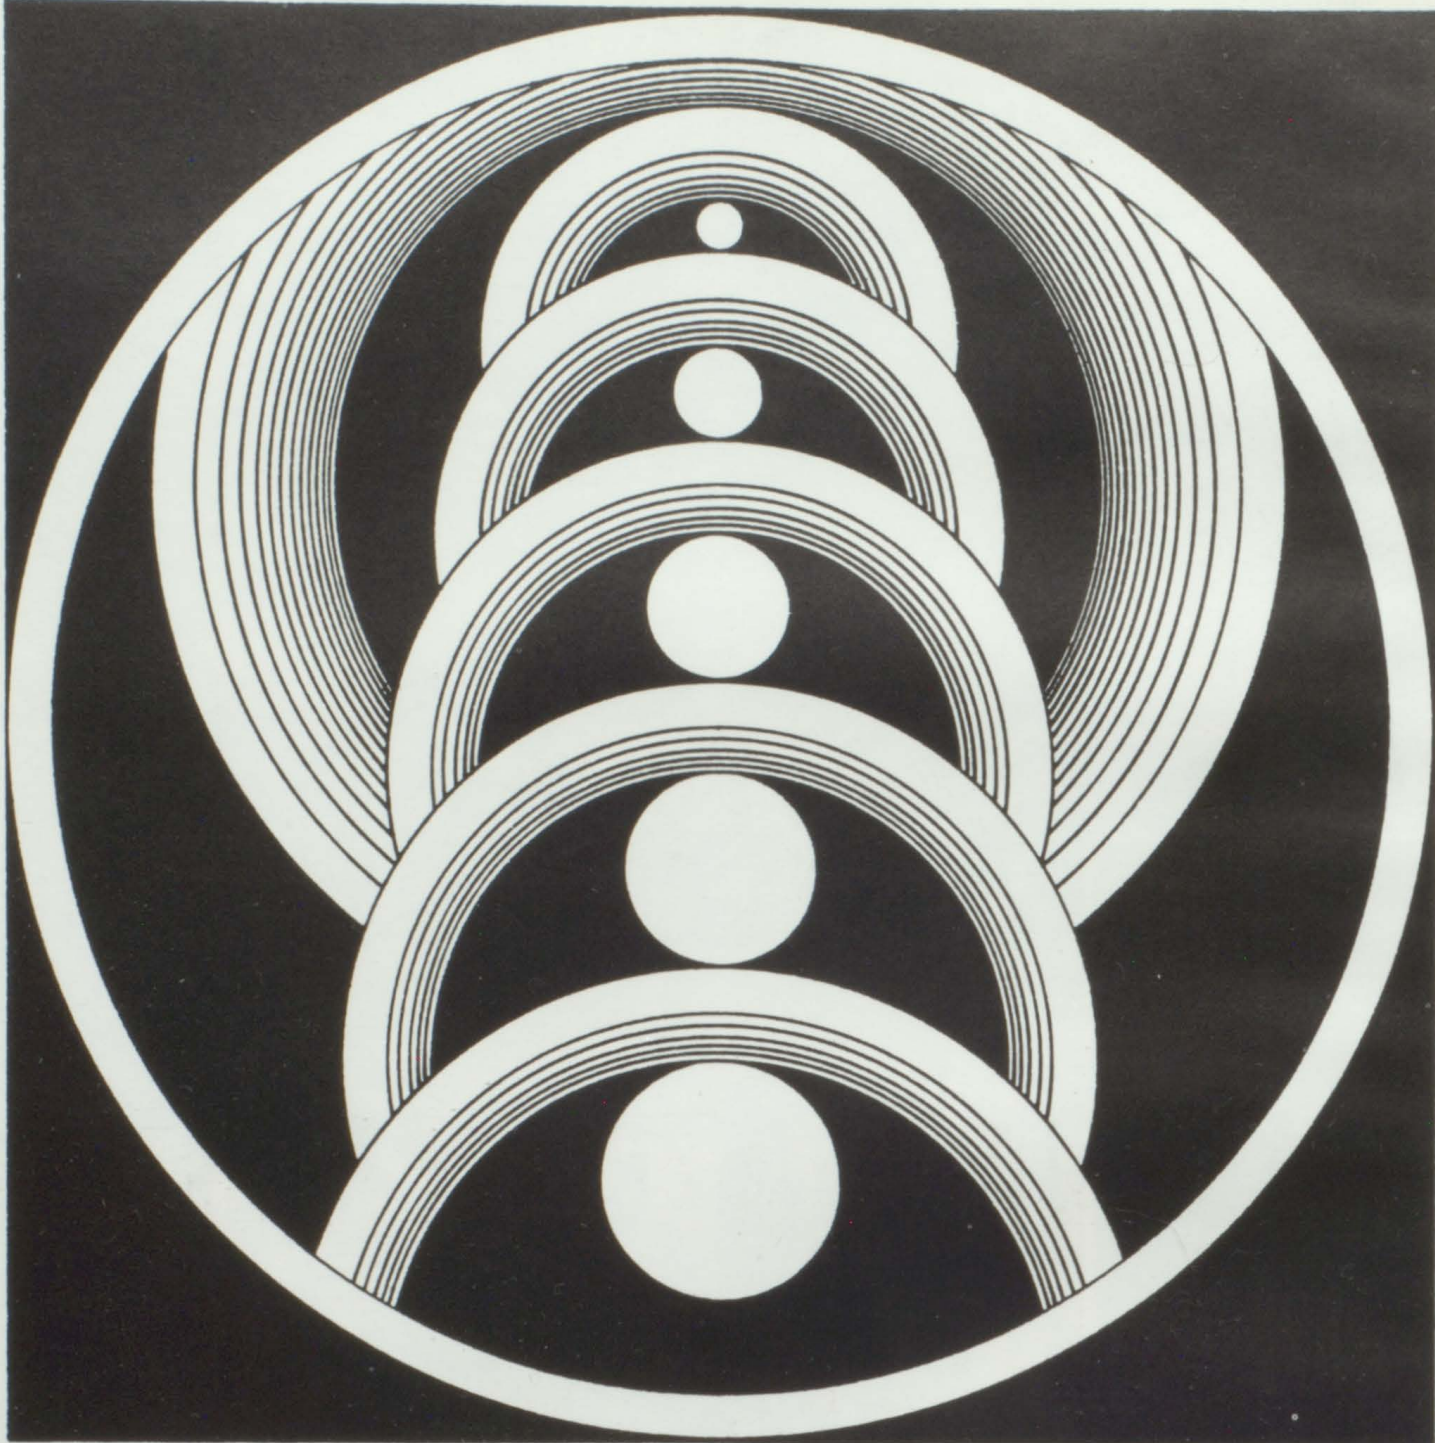

...a 92 Rating in Survey C

The honor given to us is something to be proud of-- one and all. We are number 1 because of our students, parents, and teachers.

We are a celebration -- our past, our future, our dreams, our talents, our aspirations. We are a celebration of life. Our lives will stretch beyond new horizons. As we look to the future, we may be discouraged by the pressures of earning, practicing, rehearsing, and growing. However, this is the canvas that dreams will be painted on. Soon our dreams will no longer be imagery but reality..A reality worth celebrating.

You too can be part of the celebration. Look to today for the joys you have are forever yours. Blessed remembrance brings them back and you celebrate. With confidence, go forth and attain, for tomorrow we might be celebrating you!
