i-Ready®

Good afternoon,

Your i-Ready account is now live for the 2016-17 school year. We want to thank you for allowing us to be your partner in driving student results in Richmond County!

In order to ensure you have the best possible experience with the program, we are sending along some resources to ensure you are up and running with the program and your students.

Getting Started with the Program

- A quick reminder that *any* rostering changes that need to be made to the account (adding students, changing teachers or classes, etc.) must be completed through your student information system.
- Please remember that as soon as students log in for the first time, they will be immediately taken to start a diagnostic. They can choose either to start with the Math or Reading Diagnostic.
- The assessment normally takes approximately **2 class periods**.
- Students have **21 days** to complete the assessment before the assessment resets itself.
- Teachers receive rushing information on their students on the home page upon logging in.

   Instruction:

- After the assessment is finished, all K-8 students will receive a personalized lesson path based on their diagnostic results.
   - *Note:* Grade 9-12 students only receive this if their diagnostic score places them below the 9th grade.
