August 5, 2021

Dear Parents and Guardians,

My name is Kristian Woodward, and I am honored to be the school counselor at Warren Road Elementary School! I have been a school counselor since 2012 and joined the team at Warren Road in 2020. I offer guidance and counseling services at Warren Road Elementary as part of the total school program. The guidance and counseling program focuses on the academic, career, and social/emotional domains. This proactive support service is designed to aid students' early development and positive growth. Some of my duties include presenting classroom guidance lessons, conducting individual counseling sessions, facilitating small group counseling, and consulting with parents and teachers. This year, classroom guidance lessons will be conducted in each classroom, covering topics such as test-taking skills, setting and achieving goals, friendship, internet safety, self-esteem, self-control, respect, and career exploration. Additionally, students may be referred for individual or small group counseling by a teacher, parent, administrator, or student self-referral. You will be contacted if your child expresses interest in individual or small group counseling, as your permission is needed for participation in either. Please let me know if you have any questions or if I can assist you in any way. I look forward to meeting you and working with your family!

Sincerely,

Kristian L. Woodward

Kristian L. Woodward, Ed.S.

School Counselor
