

We are excited to announce our [Fall Reading Skills Programs](#). These online programs help kids grow into stronger students who love reading.

In this program, your child will:

- *Build the right skills for his or her grade in school*
- *Enjoy reading wonderful, age-appropriate books*
- *Participate in engaging class activities and discussions*
 - *Get the individual support he or she needs*
 - *Develop a lifelong love of reading*

Our programs will help your child succeed in school this year. No matter your child's grade, he or she will complete schoolwork more quickly and easily, get a big boost in confidence, and enjoy reading more!

Since 1970 the Institute of Reading Development has been a national leader in reading instruction, dedicated to one thing: teaching students the skills they need to succeed in school and become lifelong readers. Throughout its fifty-year history, the Institute has taught over 3 million students in partnership with over 100 colleges, universities, and non-profit organizations across the country.

Every fall program includes eight weekly small-group classes led by an exceptional teacher, engaging interactive skills lessons, and carefully selected books.

Check out our many convenient and flexible schedules, including after-school and weekend options, at www.readingprograms.org/fall. Secure your child's spot today!
