2020 Census Information

Hello Parents! Did you know that completing your Census is important to the Richmond County School System? Many programs that our district relies on have funding that is tied to Census data. The funding we receive for the School Lunch Program, special education, and Title I schools are all impacted by Census counts. In less than 10 minutes, you can help ensure that we receive our share of funding for our students. If you haven't already, you can complete the Census at www.my2020census.gov or by calling **844-330-2020** and or by completing the form that was mailed to you.

Our school is depending on you. Thanks!
