

Richmond County School System Gifted Program

“A.C.E.”

Academic and Creative Enrichment

Dear Parents:

Welcome back to another year of A.C.E.! We are excited to have a large group of bright, motivated students. Students will receive instruction by their gifted endorsed teacher each week and will experience engaging and challenging curriculum through well designed units. These units are aligned to the state's Common Core Georgia Performance Standards and Georgia Gifted Standards. In addition to these units, students will be allowed opportunities to explore and develop their own interests. Students will also participate in a differentiated curriculum that emphasizes the areas of creativity, problem solving, research, communication, group dynamics, and computer technology. The classroom and gifted teacher will collaborate to develop and deliver instruction to meet our student's needs in the regular education classroom as well. It is our hope that your child will find his/her participation in the gifted program full of rich experiences that will inspire their love of learning—both in and outside of the classroom, and throughout life. If you have any questions or concerns, please do not hesitate to contact your child's gifted resource teacher, school principal, or gifted coordinator. It is with great enthusiasm that we kick this year off with new learning for each of our students.

Thank you,

DeAndra S. Hall
