

Science Distance Learning

ASSIGNMENTS

Week 1:

Choose a land biome and do a three (3) page report on the biome you chose.

Week 2:

Type a report that tells about the animals that live in your biome. Tell how they adapt to physical features in the biome you've chosen.

Week 3:

Tell about the weather in your biome. Find some places around the world that have the same type of weather. List the countries, and the types of similar weather.
