

Manning United States History Summer Assignment

The course content for United States History begins with the exploration and colonization of America. However, it is critical that students understand the composition and culture of Native American groups who occupied the Americas prior to the period.

Student should complete the map assignment; the graphic organizer of Native American groups; and the two (2) primary source readings. The assignment will count as test grade and is due on the first day of class.

Part 1: Using the map, complete the following:

1. Label and *lightly* shade the following areas:

Arctic	Subarctic	Great Plains	Southwest
Southeast	Northeast	Northwest	

Create a color key to the areas.

2. Label the domains of the following Native American tribes:

Algonquin	Aztec	Cherokee	Comanche
Creek	Eskimo	Hopi	Inuit
Iroquois	Pueblo	Sioux	Wichita

Create a color key for the tribes.

3. Label the map on how food was obtained (H = Hunting; A = Agriculture; F = Fishing)

Part 2: Using the internet, complete the TABA chart on the following pages.

Part 3: Complete the two (2) primary source readings and answer the corresponding questions. Highlight key terms and concepts and underline parts of the text on which you have questions.
