Edmodo is a classroom tool used to provide students with 21st learning with online homework, content discovery, and direct communication with the teacher away from the classroom. Every student in middle school will become a member and create a username and password. Parents can become involved with EDMODO by downloading the EDMODO app or visiting EDMODO.com. Every student account includes a parent code that can be found at the bottom left page of your child's home page. EDMODO provides you with teacher assignments, homework and resource links.
