

Asynchronous Fridays - Best Practices

How Teacher's Time Should Be Spent

- ✓ Collaborative Planning & Professional Learning
- ✓ Office Hours & Tutoring with Clearly Communicated Schedule
- ✓ Grading & Timely, Meaningful Feedback (Use Speedgrader!)
- ✓ Building Course Materials (Canvas, Edgenuity, etc.)
- ✗ Assigning New Lessons?

How Students' Time Should Be Spent

- ✓ Working On Existing Assignments
- ✓ Credit/Grade Recovery
- ✓ Attending Tutoring/Office Hours
- ✓ Studying

Trouble with
Canvas?
Don't forget about
the Canvas
Guides!

Practice Effective Technology Integration

- Survey your students & know what kinds of devices your students have access to at home (if any) and when
- Be flexible with due dates (within reason) - technical issues are bound to come up
- Know your district's technology resources (see our Instructional Technology Homepage or our Stream Channels)
- Have a framework for effectively integrating technology in your instruction: SAMR Model T.I.M. ISTE Standards
