SCHOOL

Are you all geared up for school
year 2021- 2022?

Mrs. Shields
7th Grade Math

I am very excited to be your child's 7th grade math teacher! Teaching your child is a tremendous responsibility and I will do my best to ensure that each student has a safe and motivating learning experience. However, I must say that I cannot do this without the help of you, the parents. We are partners in the learning process!

Classroom Participation: It is essential that all students come to class prepared and ready to learn! All students should be prepared to take notes daily and be actively engaged during instruction.

Homework: All students will be assigned homework on a weekly basis. Other homework assignments (i.e., study guides, projects, etc.) will also be assigned periodically.

Assessments: Students will be quizzed on course materials covered during the week; therefore, classroom participation and daily note taking is imperative. Students will also be assessed on course materials covered throughout the Lesson Units.

*All other pertinent information can be found on the course syllabus.

If you have any questions or concerns please do not hesitate to contact me via phone, email, or using the Remind app.
