- o   Not interested in keeping tabs on additional licenses and just want to give parents the option to register their own kids individually? Training and Support - Here is a link to our COVID-19 Resource Center for schools. Any teachers who need to immediately become familiar with the program can access training through GPS, our online onboarding program (accessing GPS through our Education user community, The Bridge, will require a brief registration, but this is also free). You may also already have an online training built into your Rosetta Stone contract - let me know if you want me to check and I can schedule your teachers/staff a live training with our team.
