

**Distance Learning Alternative Assignment Instructions/ Packet**  
**Fundamentals of Aerospace and Flight Operations**

**Newton's Law review Laws 1-3**

- Read the informational packet for background information on The three laws of motions.
- The sheets include **critical reading** where you will read an excerpt on that law and answer three question, **multiple choice** (Use background information to assist), **matching** and fill in the blanks
- The Terms for fill in the blank and the matching are the same terms.

**Forces of Flight Review**

- Same as the Newton's Laws sheets read the background information before tackling worksheets.
- For the first sheet choose a force of your choosing (Drag, Thrust, Lift or Weight) and answer the following questions.
- The other sheets you are to write the name of the appropriate force in the box below.
