Sixth Grade Math

J. Williams

Office Hours: 9AM-3PM

Work Phone Number: 762-233-3116

Email address: willija4@boe.richmond.k12.ga.us

As we know the students will be out of school for a while but they still need to get an education and because of this unfortunate circumstance, I have provided the following instructions to help keep us on track. Listed below are some mandatory assignments as well as some info for some extra credit. Only content that has been covered in class with me will be graded for records but the other assignments will be used to help us not fall too far behind.

Everything related to class is **ALWAYS** on my Murphey Middle class page and in Canvas so students know what the expectations are for class. The students been taught multiple times how to access Canvas, Microsoft Teams, and teacher web pages so please utilize the things we have been working on since we first started school. Try to apply the things you already know to the things you don't and I am sure you will see where the work **YOU'VE DONE** so far has taken you in not just math but in every class.

Video Lectures Notes

Listed below are all of the videos we have taken notes on already and some we have not. All notes not entered into your notebook already will be transferred when we return to school. I SHOULD have your Interactive Notebook since we had a Notebook Check before we left on Friday but if not you can put your notes directly into yours if you have it in your possession. I will also be providing recorded lectures of the classes we were supposed to have onto Teams and Canvas for the students who may need additional assistance.

- ➢ Multiplying Fractions
- ➢ Dividing Fractions
- ➢ Adding and Subtracting Fractions
- ➢ Adding Fractions with Unlike Denominators
- ➢ Subtracting Fractions with Unlike Denominators
- ➢ Mixed Numbers
- ➢ Adding Mixed Numbers
- ➢ Subtracting Mixed Numbers
- ➢ Multiplying Mixed Numbers
- ➢ Dividing Mixed Numbers
- ➢ Absolute Value

Practice Work

The following assignments are practice work to help enforce the things we have learned and ones we have yet to grasp.

- Adding Fractions
- Subtracting Fractions
- Adding Fractions with Unlike Denominators
- Subtracting Fractions with Unlike Denominators
- Multiplying Fractions
- Dividing Fractions
- Adding Mixed Numbers
- Subtracting Mixed Numbers
- Multiplying Mixed Numbers
- Dividing Mixed Numbers

Extra Credit

Extra credit will be posted to my class page and Canvas later. You can sign up for my web page update alerts and be sure to check Microsoft Teams as well

MISSING WORK

The number of students that have turned in work was far below 50 percent. I am extending the time to turn in **ALL** Covid-19 break work **ONE FINAL TIME**. Everything is due on January 6, 2021 as soon as you come to class. All past assignments are still in the same place so you know where to find it and you only need a mobile phone to access it. You know what the expectations **STILL** are for my class and our team as a whole. **NO EXCUSES WILL BE ACCEPTED** since by this time almost three months will have passed since the first packet had been assigned. All I am asking you to do try to show the effort needed towards the goals set at the beginning of the school year.

 REMEMBER WE AIM TO BE THE BEST GRADE LEVEL TEAM IN MURPHEY MIDDLE SCHOOL. UNFORTUNATELY, FOR MY OTHER STUDENTS MY HOMEROOM HAS THE GOAL TO BE THE BEST CLASS OVERALL SO YOUR CHALLENGE IS TO STOP THEM.

BE SAFE, HAVE A MERRY CHRISTMAS, AND REMEMBER I AM AVAILABLE **DURING** MY OFFICE HOURS.
