Background

I was born in Greenville, SC and moved to Evans, GA when I was three years old. This is my first year teaching, and while obtaining my degree, I gained experience in all elementary grade levels and student taught in a fourth grade classroom. In 2019, I traveled to New Zealand with an Augusta University study abroad group. On this trip, I studied and observed the education system of the Maori people, the native inhabitants of New Zealand. This trip fueled my passion for traveling and teaching!

Education

I graduated from Evans High School in 2016. While in high school, I was able to complete the Early Childhood Education Career Pathway Course. This pathway allowed me the opportunity to spend three years in local Columbia County schools where I helped with lessons and worked with small groups of students in all subject matters. I graduated from Augusta University with a Bachelor of Science in Elementary Education in the spring of 2020.
