

Hello Langford Middle School Parents!

The start 2020-2021 school year is right around the corner and your LMS faculty and staff is excited to begin this journey with you and your child. We would like to start the year off by introducing the new and innovative way lessons will be presented this school year. The Canvas Learning Management Platform allows schools to build a digital learning environment that meets the unique challenges we are facing currently. We would like for our parents to feel comfortable and supported with Richmond County's newly adopted instructional program; therefore, we will be hosting a virtual parent meeting and invite you to attend. Please select the date and time that is convenient for you. We look forward to charting this new territory with you!
