### Units of Study

The units of study are selected based on the interest of the students in the Scientific Research Class.

#### **Examples:**

Effects of Online Learning  
Space Projects  
Effects of Coronavirus  
Current Events

### Course Description

Students taking the Scientific Research I course will develop projects that are mostly suggested or required by their teacher. It is expected that these students will receive strong support from their teacher and their research projects could be completed on a time frame of weeks. Presentation of the projects developed at this level will happen mostly in a classroom setting or school site science fair.
