

Fall Literacy and Numeracy Activities

Second & Third Grade

Please work with your family to complete 1 or 2 activities each day. Try to complete a straight or diagonal line to win the game of bingo. Celebrate with a family game activity and a treat.

			
 Go outside, collect a leaf, and write a paragraph describing its texture, color, and shape.	 Write a sentence about your favorite fall activity AND draw a picture of it	 Create a picture using repeated addition or an array to solve a multiplication problem (e.g., 2×3).	 Log on to your launch pad, click on Storyline and read a book. Choose a character to write about.
 Count the number of syllables in each word (harvest, pumpkin, apple, leaf, Thanksgiving)	 Go outside, collect leaves, and sort by color or shape. Create bar graphs or pictographs to show results.	 Find a newspaper and find the following: words with 3 syllables, words with digraphs, words with r-controlled vowels and long vowels.	 Find a sales magazine. Find 5 different ways you can spend \$100.
 Skip count by 2s, 5s, and 10s to 100.	 Choose small objects in your house (candy, beans or buttons). Make 5 arrays and discuss with a family member.	 Practice writing your name in cursive using different writing tools. Ex. pencil, pen, or marker	 Draw an apple tree and label its parts (leaves, root, trunk, branches, fruit)
 List 5 adjectives to describe fall. Write sentences for each (use different subjects for each sentence).	 Ask 10 friends or family members to tell you their favorite fall activity, pet, or ice cream. Create a graph using the information.	 Draw a pumpkin. Write a story about your pumpkin. Write your name in cursive at the end of your story	 Calculate the total of $4 + 5 + 6$ using your favorite snacks (e.g., pretzel, raisin, popcorn)
 Find 5 cool FACTS about Fall.	 Create a song to teach about a math skill you have learned.	 Go outside, then write a short poem about fall weather.	 Do 5 big arm circles like a tree.

*Practice math skills using First in [Math](#) each day for 20 minutes.
