

Physics
Course Syllabus
Mr. Jody Grant
BS in Physics
M.Ed., Ed. S. in Leadership
Augusta State University & Lincoln Memorial University
Broad Field Science Certified
Teaching at Westside for 22 years

Course Description:

Physics is a study of the basic concepts of science - measurements, motion, force, energy, momentum, light, sound, electricity, and magnetism. Instruction includes theory, calculations, and experiments geared towards giving students a firm foundation for college and career. The course is based on the curriculum guidelines provided by the State of Georgia under the Georgia Standards of Excellence (GSE) for Physics (www.georgiastandards.org). Instruction includes theory, calculations, and experiments geared towards giving students a firm foundation for college.

Course Topics

The Science and Math of Physics	Gravity and Rotational Motion
Kinematics and Mechanics	Wave Mechanics
Energy and Thermodynamics	Acoustics and Optics
Structure of Matter	Electrostatics and Electromagnetism
Nuclear Physics and Radioactivity	Quantum Mechanics

Required Materials:

- One 1-inch 3-ring binder (NO spiral notebooks or folders with brads)
- Loose-leaf paper
- Pencil or blue/black ink pen (a pencil is preferable)
- Textbook
- Scientific calculator (some available for check-out)

**All required materials should be brought to class everyday

Text:

Physics (James S. Walker, Pearson)

Class Rules:

Students will follow all school rules and policies as stated in the student handbook and code of conduct book. Also the following rules will be enforced with the consequences listed.

*Show respect for your classmates and the teacher

*Remain in your assigned seat

*Always come to class prepared with required materials

*Follow all lab safety procedures as discussed in class (failure to do so could not only be harmful to you but also to your grade)

*No eating or drinking in the classroom

Consequences

Violation 1: verbal warning

Violations 2-5: detention

Violation 6: referral to asst. principal for discipline

You must be in the classroom when the bell rings, or you will be marked tardy.

Evaluation:

Major Assignments: Tests/Summatives, Projects

Minor Assignments: Quizzes, Labs, Smaller Assignments

Homework will be practice of daily work. Studying current and past concepts is an understood part of homework.

Notebooks are very important in this class and should be kept organized. It will serve as your portfolio. Each entry or item in the notebook will be assigned a number.

Lab grade will be determined from the lab report and from participation in the lab. You must clean up your lab station when you finish your lab. Points will be deducted for not doing so. Each person is responsible for turning in a report. No two lab reports should be identical. Due date for each report will be given at the beginning of the lab.

Make-up Assignments:

Any time you miss any part of class, you are responsible for getting assignments and notes. You must have a written excuse to be able to make up assignments. You have 2 days after your absence you bring the excuse. You must schedule a time to make up work **THE DAY YOU RETURN FROM YOUR ABSENCE**. If you miss a lab, you must schedule a time with me to complete it. If you miss a test, you will be expected to take the test on the day that you return unless you make other arrangements with me. Please check my page on the school website and Canvas to stay current on all assignments (<http://westside.rcboe.org>)

Late assignments will be accepted for one week. After one week, an alternate assignment (covering the same standards) *may* be given. The student and the teacher will determine the due date for the alternate assignment.

If a student is absent on the day of a test or quiz, the student must be prepared to take the assessment upon returning. Students will be allowed to re-take assessments upon request as long they have attended at least one tutoring or help session, within the time period agreed upon by the student and teacher.

My Help:

If you need any help with any material we cover, please see me. The sooner you make me aware of any problems, the better. I am here to help you. **Do not wait until the day before the test to come and ask me questions.** I am available most every day after school until 3:45, and I will also be at WHS by 7:00 each morning. I strongly encourage you to take advantage of this time.

Please have this syllabus signed within two days. It is the first entry in your notebook. If you have any questions or concerns, you may contact me at the school (868-4030 or GrantJo@boe.richmond.k12.ga.us). My planning period is from 9:30a – 10:20a each day. I look forward to an exciting year!
