

PERSONALIZED TELE THERAPY SERVICES

MEDICAID IS ACCEPTED

WHAT IS TELE THERAPY?

Our in-school Teletherapy platform allows our therapists to work with students and families without parents missing work. The therapy sessions will be in a private location at the schools and parents will be sent a link to join on their phone or computer. The schools' partnership with ESE Mental Health will get you connected to personalized services quickly, usually less than a week. Reach out us @ 877-755-2212 or your school counselor today.

ISSUES ADDRESSED WITH TELE THERAPY:
