**school
and
community**

For nearly 40 years, A.R. Johnson Health Science and Engineering Magnet School has been the premier school choice option for students with special interests in health science, engineering, and other STEAM related fields. Beginning in 6th grade, students are exposed to the fundamentals of engineering and healthcare to lay the foundation for the course pathway they choose to pursue in high school. Not only do A.R. Johnson students learn valuable 21st century knowledge and soft skills training, many students graduate equipped with industry-standard credentials and certifications that they can carry directly into college and the workforce.

average daily attendance 95.8

Superintendent: Dr. Malinda Cobb

class rank & grade point average

An official class rank is compiled for each grade that is computed at the end of the year. Averages are carried out to three decimal places and final averages are not rounded. Student's grade point average (GPA) is based on quality points. Regular high school courses are on a 4.0 scale and Advanced Placement and Dual Enrollment College/University courses are on a 5.0 scale. High school student transcripts include the GPA, class rank, and numerical average. To obtain an ARJ Diploma Seal, students must take an additional science and math course beyond the Georgia Graduation Requirements and complete a CTAE pathway.

Accredited in 2017-2018
