Addendum: One of the prevailing purposes of this particular meeting is to assist the Assistant Principal of Discipline (Harris) in revamping the current protocols for the upcoming School Year (2016-2017) with regard to the PBIS Plan for Spirit Creek Middle School.

In an intensified effort to reduce out-of-school suspension incidents and in order to accomplish this, a substantial amount of strategy will emphasize the use of conflict resolution through guidance counselor interventions, as well as, increased administrative feedback through parental conferences. Members who were supportive of this initiative expressed concern for student remaining in school to receive quality instruction in order to meet the expectations of the College and Career Ready initiatives from the District.
