Greetings Hornet Family Members!

Welcome Back and Happy New School Year to you all!

I am elated to begin our second year together, here at Windsor Spring Elementary School. It is an honor and a privilege to serve as your principal. We are all winners at our school. Be reminded that winners are not people who never fail but are people who never quit trying. Champions are people who never quit trying to be better each and every day. Together we will create a year of Champions. Champions of excellence who will work to make our school the best it can be. We are going to create a winning school culture and climate as we focus on improving both our student engagement and academic growth. Championship safety, accountability, support, mutual respect and academic excellence will be highly evident each and every day. Our goal is outstanding achievement on both the Georgia Milestone Assessment System (GMAS) and the Georgia Student Learning Objectives (SLOs) and increasing our College and Career Readiness Performance Index (CCRPI) score. Our vision and mission statement are the center of our daily work as we strive to master the Georgia Standards of Excellence and the Georgia Performance Standards. As we show ourselves to be champions, we will daily work to create a culture of college and career readiness and build shared understandings about what this means to us here at Windsor Spring Elementary School.

Each of our teachers is your teacher, each of our staff members is your staff member. We are all a part of the Windsor Spring family. We are here to teach, respect, help and love you. And by the same token, we expect to be taught, respected, helped, and loved by you, as well. We have planned lots of new opportunities, events and activities so stay tuned for details.

During this school year I invite to your embrace all learning opportunities, unlock your potential, inspire excellent, and move further down to path of becoming your best you. Again, welcome to Windsor Spring and a great new school year.

Best wishes and love,

Dr. McGahee
