Georgia High School Association Student/Parent Concussion Awareness Form

SCHOOL:
DANGERS OF CONCUSSION
Concussions at all levels of sports have received a great deal of attention and a state law has been passed to address this issue
Adolescent athletes are particularly vulnerable to the effects of concussion. Once considered little more than a minor "ding" to the
head, it is now understood that a concussion has the potential to result in death, or changes in brain function (either short-term of
long-term). A concussion is a brain injury that results in a temporary disruption of normal brain function. A concussion occurs whe
the brain is violently rocked back and forth or twisted inside the skull as a result of a blow to the head or body. Continue
participation in any sport following a concussion can lead to worsening concussion symptoms, as well as increased risk for further
injury to the brain, and even death.
Player and parental education in this area is crucial – that is the reason for this document. Refer to it regularly. This form must b
signed by a parent or guardian of each student who wishes to participate in GHSA athletics. One copy needs to be returned to th
school, and one retained at home.
COMMON SIGNS AND SYMPTOMS OF CONCUSSION
 Headache, dizziness, poor balance, moves clumsily, reduced energy level/tiredness
Nausea or vomiting
Blurred vision, sensitivity to light and sounds
 Fogginess of memory, difficulty concentrating, slowed thought processes, confused about surroundings or game assignments
Unexplained changes in behavior and personality
 Loss of consciousness (NOTE: This does not occur in all concussion episodes.)
Federation of State High School Associations, any athlete who exhibits signs, symptoms, or behaviors consistent with a concussion shall be immediately removed from the practice or contest and shall not return to play until an appropriate health care professional has determined that no concussion has occurred. (NOTE: An appropriate health care professional may include licensed physicia (MD/DO) or another licensed individual under the supervision of a licensed physician, such as a nurse practitioner, physicia assistant, or certified athletic trainer who has received training in concussion evaluation and management. a) No athlete is allowed to return to a game or a practice on the same day that a concussion (a) has been diagnosed, OR (b) cannot be ruled out. b) Any athlete diagnosed with a concussion shall be cleared medically by an appropriate health care professional prior to resumin participation in any future practice or contest. The formulation of a gradual return to play protocol shall be a part of the medical clearance.
By signing this concussion form, I giveHigh School
permission to transfer this concussion form to the other sports that my child may play. I am aware of the danger of concussion and this signed concussion form will represent myself and my child during the 2016-2017 school year This form will be stored with the athletic physical form and other accompanying forms required be theSchool System. I HAVE READ THIS FORM AND I UNDERSTAND THE FACTS PRESENTED IN IT.
