Greetings Murphey Mavericks!

Welcome to the 2022 to 2023 school year. I hope that you had a restful summer and that you had the opportunity to read a good book. We are excited about the new school year, and we look forward to working with our students and families as we focus on continuous school improvement in teaching and learning and all areas of our school environment. To our incoming sixth graders and new students, welcome to the Maverick family. We look forward to seeing your academic and personal growth over the next three years.

This year, we will renew our commitment to excellence in all that we do with a resolute expectation that all students can learn and succeed. We will continue to provide students with opportunities to address academic deficiencies, to build numeracy and literacy skills, and to earn high school credits while participating in advanced academic classes. Improvements in literacy will positively affect student performance in every content area and will stimulate overall academic growth and development.

Our goal is to create and maintain a safe and orderly school environment that focuses on student achievement. Additionally, we are committed to being Fair, Firm and Consistent at all times. I look forward to working with our Maverick stakeholders. If you have any questions or concerns, please feel free to contact the school.
