## WELCOME

Hello Graduating Class of 2022,

This year, Academy of Richmond County is excited to take “experiential learning” and projects to the next level yet again! 2019-2020 IB MYP Sophomores will have the honor of developing and implementing a personal project. This project will provide the opportunity to explore an area of interest as an individual, and bring that personal interest to life.

As a student at ARC, as well as a citizen of this world, you have the right and responsibility to have an impact on your community through self-awareness and your passion. Through in-depth inquiry, you will develop, create, and present a significant and authentic piece of work inspired by your passion that motivates you to take action and produce a product or outcome. In addition, the personal project will prepare you for success through developing important and necessary skills for high school, college, and the work force.

### MYP PERSONAL PROJECT- WHAT IS IT?

The personal project encourages students to practice and strengthen their approaches to learning (ATL) skills, to consolidate prior and subject-specific learning, and to develop an area of personal interest. It provides an excellent opportunity for students to produce a truly personal and often creative product/outcome and to demonstrate a consolidation of their learning in the MYP. The project offers many opportunities for differentiation of learning and expression according to students’ individual needs. The personal nature of the project is important; the project should revolve around a challenge that motivates and interests the individual student. Each student develops a personal project independently.

You will:

- Develop an area of personal interest beyond the subject-specific curriculum.
- Be expected to spend a minimum of 25 hours on the personal project. You will document your time in your process journal.
- Have supervisors that are experienced with IB MYP program.
- Choose a project that is of appropriate grade level scope and quality.
- Document your work in a 1,500-3,500 (approximately 6-14 double spaced pages) written report.
- Be required to sign a document of authenticity stating this project is your own work.

While this project may seem like quite a bit of work, we are confident the rewards will be even greater, for success as a student now and in the future.

## PROCESS JOURNAL

The process journal is a generic term to refer to the record of progress maintained by you throughout the project. However, it is your choice as to how you will maintain the record. The journal can be written, visual, audio, or a combination of these. It may include both paper and electronic formats.

You should carefully select evidence from your process journals to demonstrate development in all criteria. You will need to submit these as part of your report at the conclusion of the project.

You will need a **minimum** of **10 individual** extracts to represent the key developments of the project. These will show you have addressed each of the objectives.

An extract may include:

- Visual thinking diagrams
- Charts
- Notes
- Annotated illustrations
- Pictures, photographs, sketches
- Self/peer assessment feedback
- Artifacts from inspirational visits to museums, performances, galleries
- Bibliography (MLA form) <http://www.easybib.com>
- Bulleted lists
- Short paragraphs
- Timelines, action plans
- Annotated research
- Screenshots of blogs/websites
- Up to 30 seconds of visual/audio material

An individual extract may include any of the formats that the student used to document the process. Extracts should simply be supporting evidence of the process and will not be individually assessed.

If you have any materials directly relevant to the achievement of the project like questionnaires or surveys, you should include them as well.

**Conclude every process journal entry with a plan for next steps.**

**PROCESS JOURNAL CONTINUED**

| <ul style="list-style-type: none"> <li>• used throughout the project to document its development</li> <li>• an evolving record of intents, processes, accomplishments</li> <li>• a place to record initial thoughts and developments, brainstorming, possible lines of inquiry and further questions raised</li> <li>• a place for recording interactions with sources, for example teachers, supervisors, external contributors</li> <li>• a place to record selected, annotated and/or edited research and to maintain a bibliography</li> <li>• a place for storing useful information, for example quotations, pictures, ideas, photographs</li> <li>• a means of exploring ideas and solutions</li> <li>• a place for evaluating work completed</li> <li>• a place for reflecting on learning</li> <li>• devised by the student in a format that suits his or her needs</li> <li>• a record of reflections and formative feedback received.</li> </ul> | <ul style="list-style-type: none"> <li>• used on a daily basis (unless this is useful for the student)</li> <li>• written up after the process has been completed</li> <li>• additional work on top of the project; it is part of and supports the project</li> <li>• a diary with detailed writing about what was done</li> <li>• a static document with only one format.</li> </ul> |

You will show evidence of your process documented in your journals at meetings or by providing access digitally. Although legibility is important, the recording of critical and creative thinking and reflection is more important than neatness and presentation.

## GLOBAL CONTEXTS

Global contexts direct learning towards independent and shared inquiry into our common humanity and shared guardianship of the planet. Using the world as the broadest context for learning, MYP projects can develop meaningful explorations of:

| Global Context                                 | Global Context Example Explorations   |

| Identity and relationships          | <p>Two sides of social networking; an awareness campaign about digital citizenship and cyber bullying</p> <p>How online identities impact offline relationships; a research essay</p> <p>Keeping culinary traditions; a video series following family recipes with historical relevance</p> <p>The effect of mass media on teenage identity; a short film.</p> |
| Orientation in space and time       | <p>The Euclidean space perspective of the universe; a 3D model</p> <p>Explorers in search of a new world; immigration over the ages through visual texts</p> <p>The Mayflower and the dream of religious freedom; a personal family history</p> <p>Charting a family history through archives and a representational statue</p>                                |
| Personal and cultural expression    | <p>Video games as a form of cultural expression; a short film using five video games that shows how they are an expression of our culture</p> <p>The art of Manga in Japanese culture; a Japanese anime and a survey of the understanding of my peers</p> <p>Culture and self-expression through dance at the local community arts centre; a performance</p>   |
| Scientific and technical innovation | <p>Nano fibres build stronger bikes; a prototype bike with nano fibres</p> <p>What's the matter with the anti-matter?; an informational talk</p> <p>Why are genetics and genomics important to my health?; a media presentation</p> <p>Can stem cells replace organ transplants?; an investigative report</p>  |

|                                  |  |
|----------------------------------|--|
| Globalization and sustainability | <p>The struggle for water in developing countries; an awareness campaign</p> <p>The impact of the financial crisis of Europe and the European Economic Community on the United States; a visual presentation</p> <p>Education as the tool to change the future of Peru; a workshop for adults</p> <p>The role of the developing countries in protecting the tropical rain forest; a collection of slides</p> |
| Fairness and development         | <p>Supporting fair trade: Cocoa trade in Ghana; an awareness campaign for our school cafeteria to promote fair trade</p> <p>Open-market economies and their role in fair trade; a talk for students</p> <p>Exploring the intersections of race and inequality; a radio broadcast</p> <p>Asylum seekers and their right to live like us; a painting</p>   |

### APPROACHES TO LEARNING

- I. Communication- Exchanging thoughts, messages and information effectively through interaction.
- II. Collaboration- Working effectively with others.
- III. Organization- Managing time and tasks effectively.
- IV. Affective- Managing state of mind.
- V. Reflection- (Re)considering what has been learned; choosing and using ATL skills.
- VI. Information Literacy- finding, interpreting, judging and creating information.
- VII. Media Literacy- Interacting with media to use and create ideas and information.
- VIII. Critical Thinking- Analyzing and evaluating issues and ideas.
- IX. Creativity and Innovation- The skills of invention- developing things and ideas that never existed before.
- X. Transfer- Utilizing skills and knowledge in multiple contexts.

## THE REPORT

- The report does not replace the product/outcome of the personal project. If the product is in written form, such as an essay or short story, this is considered as distinct from the project report.
- All reports should cover the following areas, including the following subheadings: investigating, planning, taking action and reflecting. Include evidence for all the strands of all criteria.
- Be sure to include:
  - A summary of your project presented on a format of your choosing
  - How your product/outcome compares to your criteria
  - What you learned about yourself during the process
  - How your project has extended your knowledge and understanding of the topic and the global context
  - What Approaches to Learning (ATL) skills you used and how you used them
  - How your IB Learner Profile Traits changed
  - What you could have done better
  - Of what you are most proud
- When submitting the report for assessment, students must also include:
  - The completed academic honesty form
  - Process journal extracts (as an appendix)
  - Any supporting visual aids used during the presentation, if applicable
  - Evidence of product/outcome
  - Bibliography/sources written in MLA format. See <http://www.easybib.com/reference/guide/mla/book> for help.

**PROJECT TIMELINE**

**ATL DEMONSTRATION FORM**

Communicate evidence of the ATL skills demonstrated throughout the project. It is important to realize that ATL skills work across all stages of the personal project, often overlapping throughout the project. Talk about how you met the personal project objectives, to what extent you feel you met the objectives, and how you demonstrated the ATL skills.

| Objectives       | Level Descriptor | Demonstration of ATL skills (be sure to be clear, concise, and specific) |

**ACADEMIC HONESTY FORM**

Student Name: \_\_\_\_\_

School: \_\_\_\_\_

Supervisor: \_\_\_\_\_

This form will be used to document the meetings between the student and their supervisor. It also serves to document that all research, findings, etc. was the work of the student and in no way copied or transferred from another source and claimed as their own.

**Students:** You should meet with your supervisor a minimum of three times throughout this process. You should meet at the beginning to discuss the ideas for your project, in the middle once work has been done and steps completed, and the end when report/presentation has been completed and submitted. You are to sign off once you have done your summary from the meeting.

**Supervisors:** Oversee that the students make the necessary steps to meet with you a minimum of three times to discuss the project at the beginning, the middle and the end. Also ensure that the student makes a summary notation of each meeting of what was discussed. You are to sign off on the comments and summary and make any necessary feedback.

# IB learner profile

The aim of all IB programmes is to develop internationally minded people who, recognizing their common humanity and shared guardianship of the planet, help to create a better and more peaceful world.

As IB learners we strive to be:

## INQUIRERS

We nurture our curiosity, developing skills for inquiry and research. We know how to learn independently and with others. We learn with enthusiasm and sustain our love of learning throughout life.

## KNOWLEDGEABLE

We develop and use conceptual understanding, exploring knowledge across a range of disciplines. We engage with issues and ideas that have local and global significance.

## THINKERS

We use critical and creative thinking skills to analyse and take responsible action on complex problems. We exercise initiative in making reasoned, ethical decisions.

## COMMUNICATORS

We express ourselves confidently and creatively in more than one language and in many ways. We collaborate effectively, listening carefully to the perspectives of other individuals and groups.

## PRINCIPLED

We act with integrity and honesty, with a strong sense of fairness and justice, and with respect for the dignity and rights of people everywhere. We take responsibility for our actions and their consequences.

## OPEN-MINDED

We critically appreciate our own cultures and personal histories, as well as the values and traditions of others. We seek and evaluate a range of points of view, and we are willing to grow from the experience.

## CARING

We show empathy, compassion and respect. We have a commitment to service, and we act to make a positive difference in the lives of others and in the world around us.

## RISK-TAKERS

We approach uncertainty with forethought and determination; we work independently and cooperatively to explore new ideas and innovative strategies. We are resourceful and resilient in the face of challenges and change.

## BALANCED

We understand the importance of balancing different aspects of our lives—intellectual, physical, and emotional—to achieve well-being for ourselves and others. We recognize our interdependence with other people and with the world in which we live.

## REFLECTIVE

We thoughtfully consider the world and our own ideas and experience. We work to understand our strengths and weaknesses in order to support our learning and personal development.

The IB learner profile represents 10 attributes valued by IB World Schools. We believe these attributes, and others like them, can help individuals and groups become responsible members of local, national and global communities.
