RICHMOND COUNTY SCHOOLS

Mission Statement

The mission of the Richmond County School System is building a world-class school system through collaboration and innovation.

Beliefs

1. Every person has the right to a quality education.
2. Education is the shared responsibility of the individual, home, school and community.
3. Every person can learn.
4. Respect and acceptance are essential for learning and personal development.
5. A safe, healthy, and orderly environment is essential to learning.
6. Communication is the key to understanding among people.
7. Excellence cannot be compromised.

OVERVIEW

The need for community resources arises frequently. Counselors, social workers, nurses and other support personnel often are asked to respond to questions regarding the availability of services in the community; or collaborate with service agencies.

Accordingly, this list has been prepared to provide the names and telephone numbers of community service agencies. The list is not all inclusive. Neither does it limit the user to the agencies included herein.

This manual is organized by categories of services. Information on each agency includes name, location, specific services, and contact information.

Please remember that certain parameters exist for sharing information with parents and students. At no time should a referral be made for services which create a legal or financial obligation for the school system. A parent may be advised to the existence of several resources. The decision to seek out one resource over another is the parent's responsibility. Also, at no time should information be shared with students regarding health related issues in the absence of a parent or guardian. Parents or guardians retain the authority to help students make appropriate life altering decisions.

The materials in this handbook are provided only as a quick reference. We welcome your contributions to this list any agencies that you have found valuable that you wish to have shared in the future.

LUCY LANEY MUSEUM

The Lucy Craft Laney Museum is the only African-American museum in the Central Savannah River Area. The small house museum was the former home of Miss Lucy Craft Laney, who founded the first school for black boys and girls in Augusta.

The mission of the Lucy Craft Laney Museum of Black History is to promote the legacy of Ms. Lucy Craft Laney through arts and history. Ms. Laney began her teaching career in Macon and Savannah before, due to health reasons, settling in Augusta. With the encouragement of the Christ Presbyterian Church, USA, Ms. Laney started the first school in Augusta for black boys and girls. The school opened on January 6, 1883, in the basement of the Christ Presbyterian Church, then on 10 and Telfair Street, with little money and only six students.

The Salvation Army is a place where hope and basic needs are offered to homeless and low-income individuals. All programs are offered free of charge.

Shelters offer spiritual and physical care, food, and shelter to people in need. Each individual wanting to stay at the Center of Hope must have a picture ID to be housed the first night. After the first night individuals, who want to stay additional nights, will need to get a shelter clearance from Richmond County Sheriff's office.

This free, 9-month residential program is for adult males struggling with addiction. This program includes recovery classes, individualized support, work therapy, and spiritual guidance. The application can be faxed to 706.826.1801. For more information call CSRC Managers at 706.434.3191 or 706.434.3194. *<http://salvationarmyaugusta.org/how-we-serve/center-of-hope/>*

TUTTLE NEWTON HOME

Tuttle-Newton Home was chartered as The Augusta Orphan Asylum in 1852 to support the work of an orphanage. Tuttle-Newton continued to support the needs of children and their families by providing shelter or emergency financial aid, and by helping families access services for their children, such as child care, so a single parent could join the work force.

Our target service population is the working poor. Most families on our case load have at least one income, which typically renders them ineligible for public assistance. We monitor and supervise placements and support successful completion of programs by providing counseling if deemed appropriate and providing ancillary support, such as tutoring, to encourage success.

UNITED METHODIST CHILDREN'S HOME

The United Methodist Children's Home was established in 1871 to care for children orphaned during the Civil War and has evolved to help children and families as their needs grow and change. We now place children into safe and loving foster care homes while helping to restore family relationships; prepare young adults who are still in Georgia's foster care system to make positive life decisions and become productive citizens; and strengthen and preserve families, including by providing housing and support to families at risk of homelessness.

We work to provide redemptive healing services that bring meaningful change to the lives of children and families. Grounded by scripture and the tradition of the church, we seek to bring the wholeness of God's love to persons through Christ.
