

March 16, 2020

Dear Parents and/or Guardians,

We are embracing for a situation that we have never experienced before. I can imagine there is much confusion of how this process is going to work. Please see below for information on how to keep your student's education on track during this distance learning period. Students will be expected to complete all daily work including their worksheet packet and assigned i-Ready lessons. All work will be collected and graded when school resumes. Students will be provided a packet containing **10 days'** worth of school work for all subjects (ELA, Math, Science, Social Studies). Students may work at their own pace; however, I have included a calendar that they may follow to stay on track and not wait until the last minute to get everything done. Students will have access to and need to use their Launchpad portal for this distance learning period. All students should know their Launchpad log in information (username and password). If for some reason your student can't get logged in, please contact me. Please have your student use their provided online tools as much as possible in order to stay on track. Comcast has set up free Internet if needed. You can contact the company directly. During this distance learning time, I will be available during regular school hours Monday through Friday 8am-4pm. Please add yourself to the Remind app if you are not already a part of my class. Please see below for information on how to do so. This will be the best way to get in contact with me during this period.

Remind App: Text @wynn306 to 81010

Thanks,
Ms. Wynn
